

PLANTSTORE

containerised storage for site plant and equipment

Plant Store secure equipment storage

PlantStore has been designed by Garic specifically for the construction and building industry to address the increasing problem of plant and equipment theft. Moreover **PlantStore** gives unrivalled protection against malicious intent, vandalism or arson.

The unique and patented design provides for larger items of plant to be stored in this high security, floorless, heavy duty, steel store.

PlantStore provides the perfect solution to onsite plant security.

- 1 High security locks.
- 2 Flexible equipment storage options.
- 3 Suitable for tracked as well as wheeled plant.

safe and secure equipment storage

1

1 20' x 8' Security Box.
