OUR STORY SO FAR

WELCOME TO GARIC

Garic is one of the most trusted welfare & site equipment providers in the country. When you hire from Garic, you receive a straightforward, professional service with no fuss or headaches.

We deliver a unique multi-specialist rental and sales service in target market segments, driving value for our customers through a disciplined execution of operational excellence and service innovation.

You want the right equipment, fit for purpose, ready to go to work, safely and reliably. You want it delivered on time and collected efficiently at the end of the hire.

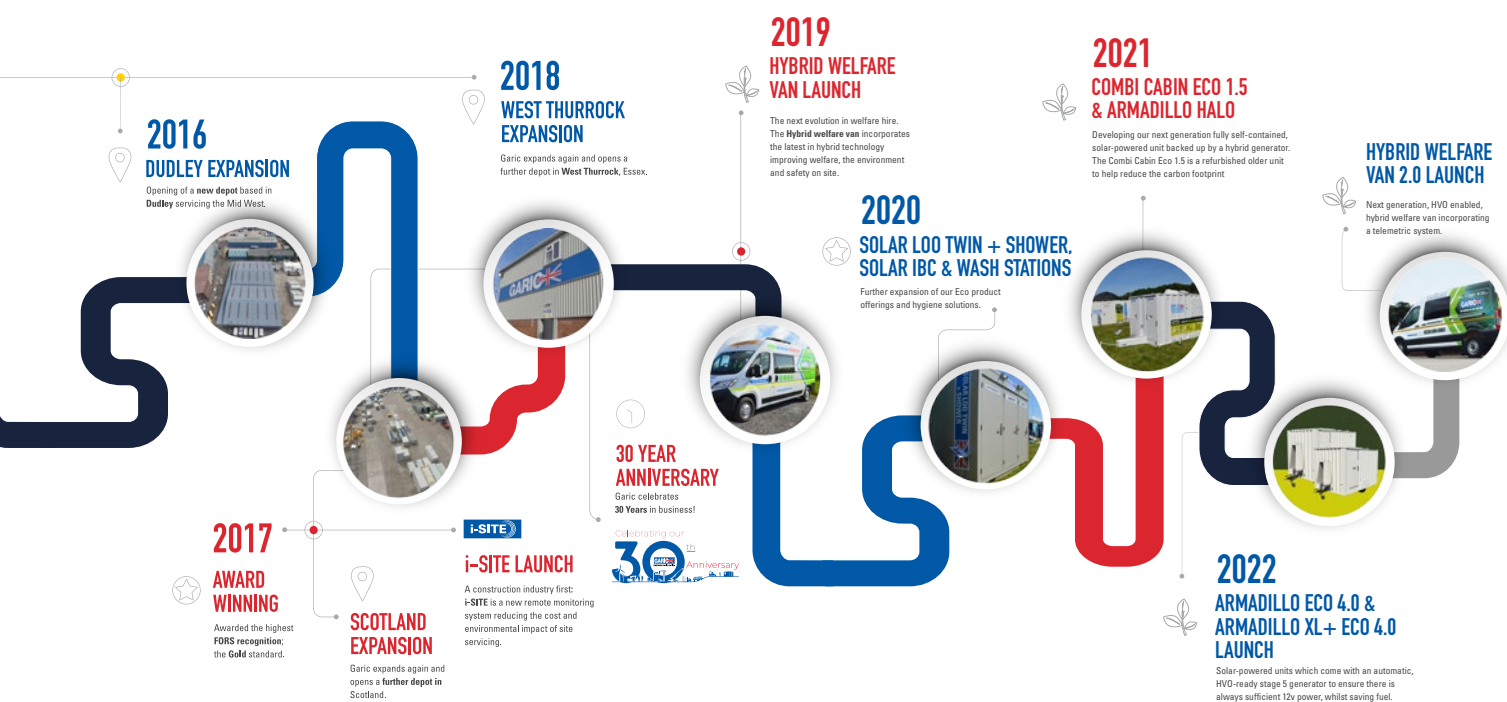

At Garic, that's what we do for thousands of customers every day and we've been delivering these high standards for more than **30 years**.

OUR VALUES

People are the most important part of our business; we deliver on our objectives by LIVING our Values.

We give people the right environment, role & tools to deliver excellence and quality in everything we do. What matters to you, matters to us.

SUSTAINABILITY AND CORPORATE SOCIAL RESPONSIBILITY

Garic are part of Bibby Line Group, a diverse and forward-thinking family business with over 200 years' experience of providing personal, responsive and flexible customer solutions in a range of industries from shipping to financial services. It is one of the longest established family-owned companies in the UK. The Bibby group are committed to ensuring profits are shared out within local communities and wider charitable organisations.

Bibby employees and businesses have supported hundreds of small local causes over the years as well as many national and international charities all chosen by the individual employees themselves through the popular match funding scheme, Giving Something Back.

The Giving Something Back (GSB) programme is the Group's ongoing initiative to give back to the communities it works and operates in by supporting employees' fundraising and volunteering efforts. Employees support the causes that they are most passionate about and Bibby Line Group provides match funding and exciting fundraising and volunteering opportunities to enhance the benefit received by hundreds of charities each year. Since its creation in 2007, the GSB Programme has donated over over £10 million to 1,000 charitable causes across the globe, a testament to employees'

dedication and their commitment to living the Group's values. This popular programme demonstrates all of our core values as a group of businesses and we're proud to be Doing The Right Thing.

What else do Garic do?

Outside of the Giving Something Back programme, Garic has an additional focus on how we as a company can improve the world we live in.

A few recent examples are:

- We became Partners of the Sustainability Supply Chain School in 2020 – showcasing our commitment to creating a more sustainable environment.
- 58% of our fleet is now made up of eco products – and we are continually looking at ways to increase this so we can keep helping the local communities that our products affect.
- We gave all our employees an extra days holiday to be used to do some charitable work of their choosing. With staff based across the UK this has meant we've been able to help a wide range of charities.
- We regularly donate used equipment to good causes. Most recently we gave a Shelter to the RSPCA so they could provide additional cover for their visitors to save them waiting in the rain.

HEALTH & SAFETY

KEEPING YOU SAFE ON-SITE

Not only are we continually developing products that will improve the welfare of everyone on site, we are committed to our Mission Zero policy where we aim to always find a safer way of working and target zero harm to our employees, customers and surrounding environment.

We continually review our Health & Safety performance to ensure best practice are always adhered to, this is closely supported by our nominated Health & Safety representatives across all depots.

Roadmap to health and safety compliance

1 INTRODUCTION

We believe that through the participation of every colleague in Garic, we will deliver the highest levels of safety performance to our customers, through product innovation, strong legal compliance and governance, and consistent drive-safe behaviours.

**WE ALWAYS EMPOWER TO
"STOP & FIND A SAFER WAY"**

2 EXPERTISE

Our SHEQ professionals ensure that we consistently operate all aspects of our business in excess of industry standards through collaboration and communication.

As part of our ongoing commitment to continual improvement, we set tough objectives and targets which are regularly reviewed.

so your operations can be safe!**

THE DIGITAL HIRE CYCLE

To ensure we keep up the high standard of customer service that we set upon ourselves, we have recently embarked on a digital integration project, whereby our systems and, more importantly our customer facing communications are streamlined.

Not only will our customers be sent real time information about their orders, but delivery systems will operate electronically so we can ensure a sustainable and green future.

SITE SET-UP

Site Services

WE HAVE THE IN-HOUSE CAPABILITIES TO UNDERTAKE
A FULL SITE SET UP OF ANY SPECIFICATION AND SIZE.

Garic are the go to project delivery partner and providing you with the best products available is only the start. That's why we have a team of qualified on-site service engineers to help you. From delivery through to installation and testing power and water connections, trust us to fulfil your full site set-up.

From a single or double-stacked cabin to the installation of modular building, fencing, connections and mains, we have the in-house capabilities to undertake a full site set-up of any specification and size.

We can provide comprehensive layouts to detailed footprints and are fully equipped to ensure your site is maximized to its full potential. We are able to set up any site, once the design has been approved. This includes ground foundations, build up and connections.

To assist with any breakdowns or repairs, we're even available 24/7 and our dedicated maintenance team is on hand to be wherever you need them, when required. Naturally, at the end of the contract, we'll also return to help you terminate the site services and remove your facilities.

SITE INSTALLATION

Once all your preliminary works have been completed and your site is ready to build, we will install everything you might need from welfare for your workers, fuel tanks, power and accessibility and mechanical plant & machinery. All from one source!

Installation includes, but not limited to:

- Site erection of Welfare & Accommodation
- Power generation - Electrical installation set up via sufficient generator
- Plumbing in of waste and water
- Trace heating
- Access lighting and task lighting (permanent or semi permanent)
- Ad hoc site movements (see lifting page 12)
- Erection of boundary fencing

CONNECT

Garic Connect is the latest addition to your site service offering and represents the future of site equipment procurement. The Garic Connect team identifies like-minded specialists in every field – we have suppliers within 30 miles of any project in the UK.

By using local companies, we offer a sustainable supply chain and can cater for any quantity or specification.

There are no limits to what we can procure whether its dumpers, diggers, rollers or cranes - we'll also do our utmost to negotiate the best prices for you.

Find out more on page 76.

SITE MAINTENANCE

For the duration of your project, Garic will ensure that your site never runs out of consumables such as water, fuel or power.

Maintenance capabilities include:

- Diesel replenishment
- Water refills
- Waste management
- Consumable supplies
- Maintenance of Welfare & Accommodation

AP SITE VISITS

All lifting on a site must be carried out in accordance with LOLER and our Appointed Persons (AP's) are all fully qualified & competent in lifting. They will attend site to assist with the logistics plan, advising on the best way of getting the items required delivered & installed safely onto your site. You will be sent a site report, a full bespoke method statement that has covered all the requirements of LOLER, PUWER, BS7121, along with a lift plan & risk assessments. Our AP's have an in-depth knowledge of the capabilities of our various delivery lorries fitted with hiab's so can select the best delivery lorry for your delivery. If you do not have a lift supervisor available on site Garic can also supply this service to control the lifting when the units are delivered.

LOGISTICS

We have a vehicle to suit your every need

At Garic we have a large transport fleet at your disposal which are FORS Gold accredited. We have a vehicle to suit your every need - available nationwide, 7 days a week. We are able to support your projects by delivering straight to your site, administering site moves and ad hoc consignments.

We understand that every job is different, but rest assured we will have something to suit you and your needs on site. All of this we do with sustainability in mind – all the while delivering outstanding service and value, the perfect transportation solution.

WE HAVE A VEHICLE TO SUIT YOUR EVERY NEED
- AVAILABLE NATIONWIDE.

LIFTING

At Garic we understand the ever changing needs of sites, and that lifting may be required periodically or on an ad hoc basis. We can provide any kind of lifting you may require, from tanks and welfare to heavy duty plant

and machinery. Our highly trained and professional HIAB drivers are skilled at positioning almost anything, even those very tight situations!
Ready for any challenge - your one stop lifting shop!

SERVICING

Waste, Water and Fuel

DEDICATED TO REPLENISH YOUR WATER AND FUEL AS WELL AS TO REMOVE YOUR WASTE.

At Garic we have a full in-house servicing team who are dedicated to replenish your water and fuel as well as to remove your waste. Services can be ad hoc, as and when you need a fill or a removal, but they can also be weekly, fortnightly or periodically according to requirements. We service all of our own units but we can also service most other units with our vehicle servicing fleet. Our service fleet is most commonly used for welfare servicing on toilets, canteens, offices and any other type of welfare unit. Most services also come with a soap and toilet paper replenishment.

We can conduct any number of services to suit your needs, whether you just need your toilet servicing, or you simply need your non-potable water source or fuel replenishing, or all three, then we have the right service for you.

Waste Management

Waste tanks and septic tanks empties can be done through our servicing fleet.

Water Refill

Clean water for toilets and potable water tanks can be filled periodically.

Diesel Replenishment

We can fill any fuel tank whether it be for self-contained cabins or bunded fuel tanks.

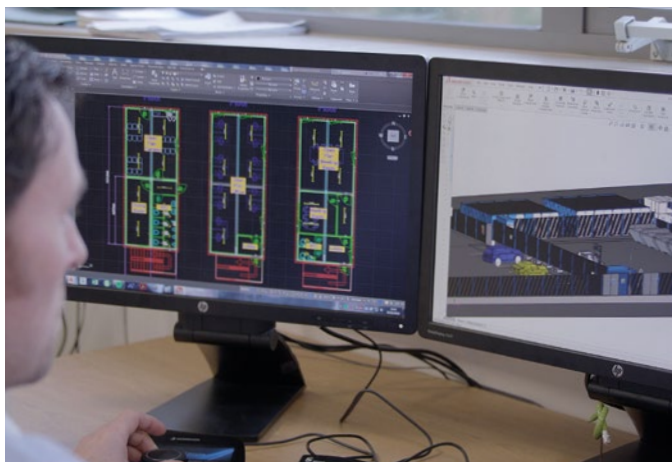

Consumable Supplies

Our 5 star service includes replenishment of toilet roll and hand sanitizer on every waste empty and clean water fill.

SITE DESIGN & LAYOUT

Specialising In Bespoke Site Design

When you choose Garic, you choose more than just an equipment rental partner. Our project installation team can help you design and plan a site installation prior to project commencement; maximising space, minimising cost, preparing a safe working environment and reducing your impact on the environment. We can help you keep your employees safe and your carbon emissions under control.

Once we have received your site requirements and ground plan our project installation team can draw up the best configuration for your site. When the design has been agreed and confirmed we can deliver a full set of drawings of different layouts of the site proposal.

Working closely with your project team, we can ensure that all aspects of your on-site requirements are carefully considered, planned and delivered. Please do not hesitate to contact us to discuss your next requirements and see how we can help you save the environment, space, money and improve safety.

OUR PROJECT INSTALLATION TEAM CAN HELP YOU DESIGN AND PLAN A SITE INSTALLATION PRIOR TO PROJECT COMMENCEMENT.

TELEMATICS SYSTEM

Within our new sustainable solutions, we have implemented a system called Victron technology.

Victron provides live data for our assets, from where they are in the country and what the weather is like, to power loads and the usage of the generator.

Its greatest use though is as an energy management system. Within our Eco welfare ranges, our battery / solar powered units utilise Victron technology to manage their power consumption, reducing the requirement of the backup generator and ultimately reducing carbon emissions.

All of the Victron systems we use are able to provide telemetry through a portal which gives live data for the power systems in the assets.

Live telemetry is provided so that we can see live running info, historical consumption data & review any faults on the assets – leading to a much reduced downtime of the asset.

This is just the start for us on our journey with telemetry and we're constantly looking at ways to improve our tech with a vision to reduce the carbon emissions of assets as efficiently as possible.

CERTIFICATIONS

Garic is certified with all of the following bodies, proving that our operations are always undertaken with heart, safety and environmental responsibility in mind.

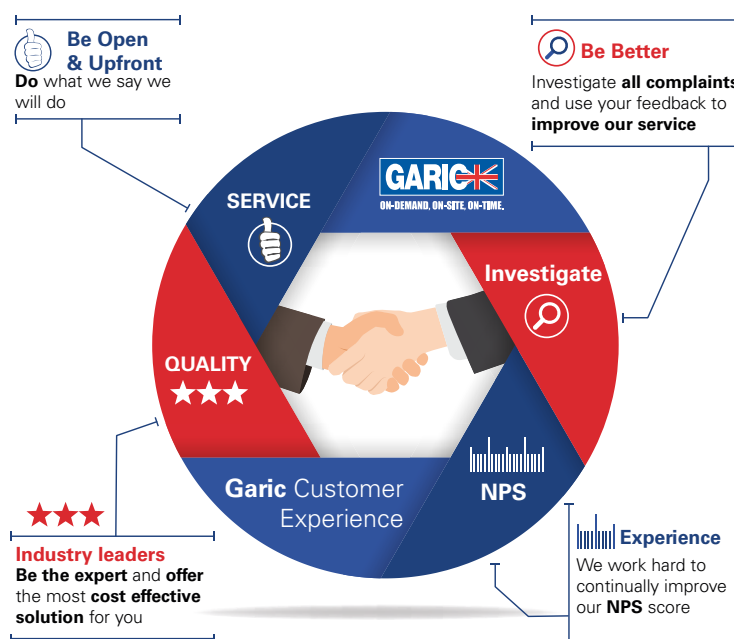

CUSTOMER EXPERIENCE

You can trust us to:

- Do what we say we will do
- Be the expert and offer the most cost effective solution for you
- Be completely transparent with all information and communication
- Use your feedback to continuously improve our service

At Garic, we measure our customer experience through the Net Promoter Score (NPS). This score tells us if our customers are likely to recommend us.

A score over 35% indicates that customers are pleased with their interactions with us and will continue to promote our products and services.

ECO PRODUCT RANGE

As well as taking care of your team, Garic's Eco product range looks after the environment too. Our innovative range includes patented and award-winning solar technology designed to tackle CO₂ emissions, reduce costs and minimise servicing, vibration and noise. From self-contained solar-powered showers, toilets and welfare units to mobile welfare units, Garic offers the largest and most trusted range of Eco-friendly products available.

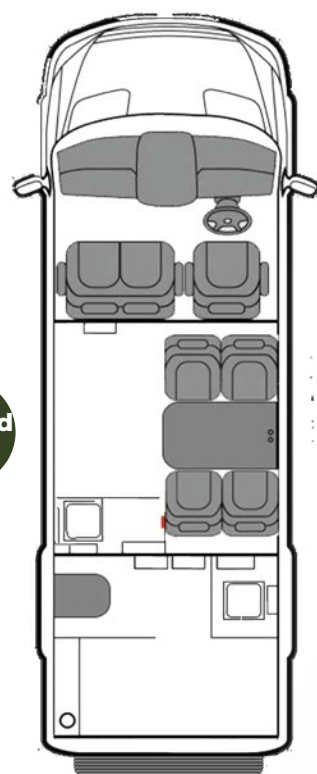

5 Star Service

We provide the option of a 5 star service with all units supplied - this includes removal of foul waste, replenishment of fresh water, toilet rolls, hand soap and diesel. Alternatively we can tailor the service to suit your requirements.

HYBRID WELFARE VAN 2.0

Thanks to the latest manufacturing processes, the Hybrid Welfare Van 2.0 brings modern comfort to the ultimate mobile welfare vehicle. We have combined the toilet and drying room to create a larger space without compromising on facilities. Premium telematics comes as standard on this fleet, meaning you have access to crucial data such as real-time location and event tracking, fuel efficiency, driver behaviour insights, and much more. And with this welfare van being HVO compatible, you can reduce your scope 1 emissions.

KEY FEATURES:

- Premium telematics included.
- Chapter 8 regulation livery, front and rear LED beacons and additional Low-level strobes (programmable) front and rear
- DSVa specification seat belts with reflective strips
- Smart & efficient power storage / lithium battery
- Unit distributes power through 12V and 240V circuit
- Automatic back up power available
- Rear parking sensors and reversing camera
- Silent Welfare mode
- Solar panels harvest up to 600w, 40amp/hrs in ideal condition.
- Keyless Running System. When 'Run-lock' button is pressed the engine will remain on for one hour, allowing the keys to be removed from the ignition.
- Vehicle can be locked from the outside to allow for Safe working in close proximity.

ENVIRONMENTAL BENEFITS:

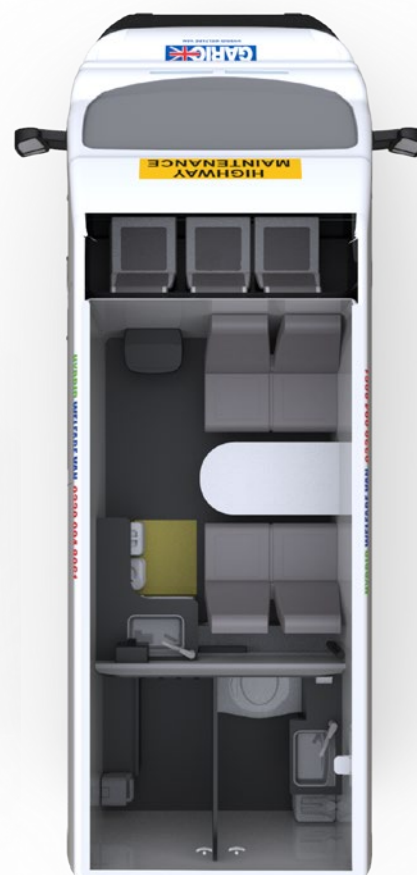

- 200Kg of carbon savings per week (standard use)* (35-70L diesel p/w)
- Annualised circa 10 ton of CO2 savings
- Low carbon footprint (47.9mpg)
- HVO ready

Product code	010003
Dims (l x w)	6.1 x 2.4m / 20 x 8ft
Weight	2850kg
Water tank cap.	45L / 10gal
Fuel tank cap.	80L / 17.5gal
Waste tank cap.	20L / 4.3gal
Layout	Canteen/Seating area & Toilet / Drying/Changing room
Capacity	7 persons
USB	5
Cubicle	1
Power	Hybrid solar
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Waste & water servicing
- First aid kit
- Additional mileage pack available
- Fire extinguisher

*All subject to ongoing field testing.

HYBRID WELFARE VAN

(Variant On Model)

Introducing the next evolution in welfare hire!

The Hybrid Welfare Van incorporates the latest in hybrid technology improving welfare, the environment and safety on site. This mobile unit can run the welfare facilities solely from its solar panels meaning that no engine has to be running whilst stationary and the facilities can be used throughout the day. Not only does this create a safer environment for workers and has less impact on the environment this could save you £££s on your bills. Innovation at its best!

KEY FEATURES:

- Up to 200Kg of carbon savings per week (standard use)*
- Up to 10 ton of CO₂ savings annualized circa*
- Private W.C with eco-flush toilet
- Canteen area with sink, instant hot water & microwave
- Overhead storage area
- Chapter 8 regulation livery, front and rear LED beacons
- DSVa specification seat belts
- Drying/Changing room and storage area
- Cassette system
- Smart & efficient power storage / lithium battery
- Lowest carbon footprint van on the market
- Stores & saves energy
- Auxiliary button to jump start engine
- Unit distributes power through 12V and 240V circuit
- Low volt LED strobes
- Automatic back up power available

Product code	010001
Dims (l x w)	20 x 8ft / 6.1 x 2.4m
Weight	2850kg
Water tank cap.	45L / 10gal
Fuel tank cap.	80L / 17.5gal
Waste tank cap.	20L / 4.3gal
Layout	Canteen / W.C
Capacity	7 persons
USB	4
Cubicle	1
Power	Hybrid solar
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Waste & water servicing
- First aid kit
- Additional mileage pack available
- Fire extinguisher

*All subject to ongoing field testing.

ECO WELFARE TRAILER

The Garic Eco Welfare Trailer, like the Combi Cabin, is an anti-vandal, steel constructed and fully self-contained unit with all power, waste and water tanks inbuilt.

The unit requires flat level hard surface - no need for specialist site preparation.

The Welfare Trailer also has large canteen facilities (up-to 15 person) office space, 2 x W.C, drying/changing room and is powered by diesel hybrid generator backed up by solar power.

With the ease of deployability and ease of use, the unit can be working just as soon as required.

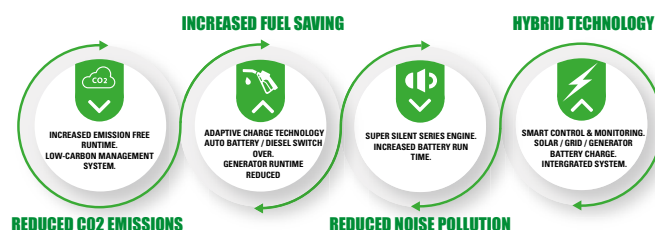

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 15 operatives and office space
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C and forearm sink
- Hybrid Solar
- 10 point anti-vandal door
- Upgradable interior available on request

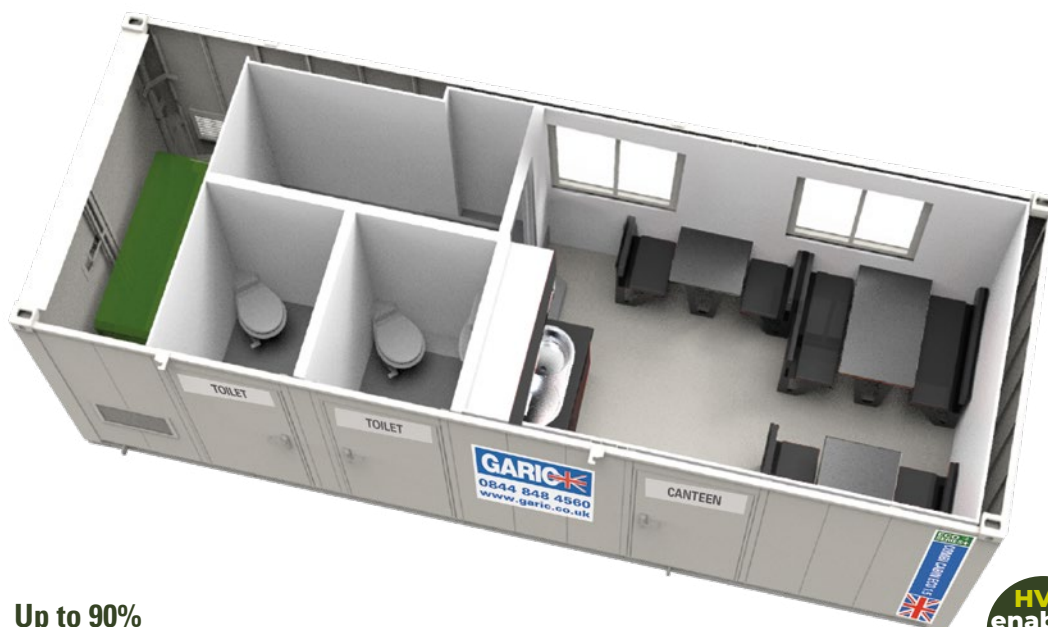

Product code	024001
Dims (l x w)	44 x 8ft / 13 x 2.5m
Weight	13,988kg
Power type	Hybrid solar
Water tank cap.	800L / 176gal
Fuel tank cap.	150L / 33gal
Waste tank cap.	850L / 187gal
Capacity	15 persons
Drying room	1
Cubicle	2
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Fuel, waste & water servicing
- Water dispenser
- Additional hours pack available
- Fridge

** Wagon is not included within the hire and is for transport only

Up to 90% reduction in CO2

Up to 90% fuel saving

Up to 90% reduction in noise

COMBI CABIN ECO 1.5

Our next generation fully self-contained, solar-powered unit backed up by a hybrid generator. This eco-focussed product will also help you to reduce your carbon footprint as it's a refurbished older unit!

The new Combi Cabin Eco 1.5 has canteen facilities for ten people, drying/changing room and 2 x W.C. It is fully CDM compliant with separate male and female facilities.

KEY FEATURES:

- Solar Charging & Battery Power Technology/hybrid Generator on board
- Full CDM compliant unit / Energy Performance Rated @A
- Fully insulated
- Refurbished, recycled unit reducing carbon footprint
- Inclusive of all lighting, heating and hot water
- Drying/Changing room with bench seating
- Fridge freezer and microwave
- Canteen for 10 operatives
- Separate, flushing, male and female toilets with outdoor toilet occupancy LED lights

Product code	032410
Dimensions (l x w x h)	7.3 x 2.75 x 2.5 M / 24 x 9 x 8 F
Power type	Solar hybrid
Structural material	Steel
Layout	M+F toilets, canteen, drying/changing room
Water tank capacity	795L / 175 gal
Waste tank capacity	864L / 190 gal
Heating	Blown-air
Heating fuel cap.	68L / 15 gal
Power type	Generator hybrid
Battery pack	Yes
Generator fuel capacity	150L
Solar panels	6 x 325W
Lights	LED
Hand dryer	Blown-air
Water heater	15L
Taps	Non-concussive
Toilet	Foot pedal
Flooring	Anti skid
Carbon monoxide detector	Yes
Outdoor toilet occupancy LED	Dual colour LED
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

COMBI CABIN ECO SERIES

This Combi Cabin Eco is solar powered and backed up by a bespoke 12v super silent generator which stops and starts as required.

Each is fitted with low voltage LED lighting throughout and hot and cold running water is available in both the canteen and toilet area.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 8 operatives & single person office
- Solar powered with a back up generator
- Inclusive of all lighting, heating and hot water
- Eco-flush W.C and urinal
- Instant boiling water, fridge freezer and microwave

Product code	032401
Dims (l x w)	24ft x 9ft / 7.3 x 2.7m
Weight	6200kg
Power type	Hybrid solar
Water tank cap.	795L / 175gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	864L / 190gal
Layout	Office / canteen / W.C
Sockets	12v
Capacity	8 persons
Urinal & cubicle	1
Shower	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Water dispenser
- WiFi
- Additional solar panels
- Additional hours pack available
- Fuel, waste & water servicing

COMBI CABIN ECO SERIES+

Taking our industry respected Combi Cabin to the next generation but without losing any of its power.

The Eco Series+ is powered by a patented solar system and is proven to reduce fuel bills by up to £90 per week.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 8 operatives & single person office
- Completely solar powered no need for a back up generator
- Inclusive of all lighting, heating and hot water
- Eco-flush W.C and urinal
- Drying/Changing room and shower
- Instant boiling water, fridge freezer and microwave
- Up to 90% more fuel efficient

Product code	032400
Dims (l x w)	24 x 9ft / 7.3 x 2.7m
Weight	5635kg
Power type	Solar
Water tank cap.	795L / 175gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	864L / 190gal
Layout	Office / canteen / W.C / drying / changing room / shower
Sockets	12v
Capacity	8 persons
Urinal & cubicle	1
Shower	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Water dispenser
- WiFi
- Additional solar panels
- Additional hours pack available
- Fuel, waste & water servicing

ARMADILLO ECO

The 6 person Armadillo Eco is a solar powered road towable welfare unit proven to reduce fuel bills by up to £100 per Week.

The unit includes a canteen with microwave and instant hot water boiler and a private W.C. It can be towed into position, places then secured making it ready for use within minutes.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Fully lockable security doors
- Canteen for 6 persons
- Auto-frost protection
- Solar powered
- Reduces fuel bills by up to £100 per week
- Hot water boiler and microwave included

Product code	020601
Dims (l x w)	12 x 7ft / 3.6 x 2.1m
Weight	1700kg
Power type	Hybrid solar
Water tank cap.	64L / 14gal combined
Fuel tank cap.	68L / 15gal
Sockets	240v
Waste tank cap.	132L / 29gal combined
Layout	Canteen/ W.C
Capacity	6 persons
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

ARMADILLO XL ECO

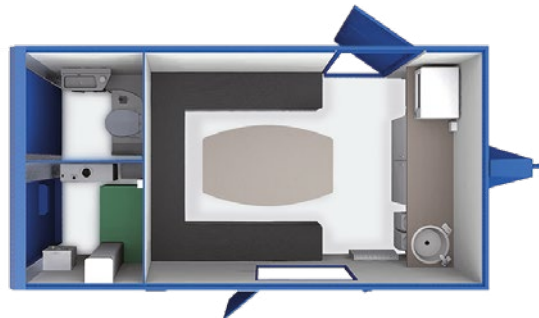

Comprising of a 10-man canteen, private WC facilities and drying/ generator room, the Armadillo XL Eco is a robust and secure mobile welfare unit suitable for even the most remote and demanding of environments.

Each eco welfare unit is solar powered and backed up by a bespoke 12v super silent generator which stops and starts as required.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Canteen for 10 persons
- Solar powered
- Auto-frost protection
- Fully lockable security doors
- Hot water boiler and microwave included
- Up to 50% more fuel efficient

Product code	021003
Dims (l x w)	17 x 7ft / 5.2 x 2.1m
Weight	1980kg
Power type	Hybrid solar
Water tank cap.	64L / 14gal combined
Fuel tank cap.	68L / 15gal
Sockets	12v
Waste tank cap.	132L / 29gal combined
Layout	Canteen / W.C
Capacity	10 persons

Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

ARMADILLO XL+

Toilet/Office/Canteen Configuration

The Armadillo XL+, is a road towable welfare unit which is hybrid solar powered. It consists of an office, canteen, WC facilities and generator room. The unit offers unrivalled comfort and convenience and is ready to use as soon as it's in position. Each eco welfare unit is solar powered and backed up by a bespoke 12v super silent generator which stops and starts as required.

The completely self-contained welfare units are constructed from steel and feature LED lighting, hot and cold running water – available in both the canteen and toilet area, microwave, table and canteen seating for ten operatives. Most units also feature generator auto-frost protection to ensure your operatives' welfare is maintained, even during the harshest of conditions.

Additional security features include a hydraulic isolation switch, fully secure window shutters and 5-point deadlocking system.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Canteen for 6-8 persons
- Hybrid Solar powered
- Integral generator with auto-frost protection
- Up to 50% more fuel efficient

Product code	021004
Dims (l x w)	18 x 7ft / 5.4 x 2.1m
Weight	1980kg
Power type	Hybrid solar
Water tank cap.	25L / 5.5 gal + 9L / 2gal - canteen
Fuel tank cap.	68L / 15gal
Waste tank cap.	25L / 5.4gal combined
Layout	Canteen / office / W.C
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

ARMADILLO XL+2

Toilet/Office/Canteen Configuration

An extension of the Armadillo XL+, the Armadillo XL+2 is inclusive of Male and Female toilets, still incorporating an office in the same footprint – maximizing space and facilities for your site. Towable, easy to use and self-contained perfect for any job large or small.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Auto-frost protection
- Powered by solar and back up diesel generator
- Canteen with kettle & microwave
- 2 x private W.C
- 12V LED Lighting with PIR
- Air blown heating system
- Inverter powered sockets and USB connection
- Table and bench seating
- Canteen with kettle & microwave
- Recycled non-slip flooring
- Steel personnel doors to four separate areas
- Removable low level lifting eyes
- Fixed low level lifting & fork pockets
- Open-plan option available

Product code	021005
Dims (l x w)	18 x 7ft / 5.4 x 2.1m
Weight	2,450kg
Possible gross weight:	2,565kg
Power type	Hybrid solar
Water tank cap.	25L / 5.5 gal + 9L / 2gal - canteen
Fuel tank cap.	68L / 15gal
Waste tank cap.	580L / 128gal combined
Layout	2 x toilet, warm room / generator, canteen & office
Capacity	6-8 persons
Cubicle	2
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

COMING SOON

ARMADILLO XL+2 HALO

The Armadillo XL+2 Halo is inclusive of Male and Female toilets, canteen, office and also has the added extra feature of a roof mounted 350 degree towerlight that extends to 3.5m.

Road towable, easy to use and self-contained perfect for any job large or small.

Now available in 2 different configurations, one with canteen and office, the other with a larger canteen area.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Auto-frost protection
- Powered by solar and back up diesel generator
- Roof mounted 350° towerlight.
- Canteen with kettle, microwave and coolbox.
- 2 x Private W.C
- 12V LED Lighting with PIR
- Blown air heating system
- Inverter powered sockets and USB connection
- Table and bench seating
- Recycled non-slip flooring
- Steel personnel doors to four separate areas
- Removable low level lifting eyes
- Fixed low level lifting

HALO TOWER LIGHT

The Halo Tower light is only available with the Armadillo XL+2 and is a robust and reliable extending mast system. The versatile retractable roof mounted mast system offers an easily deployable flood lighting solution.

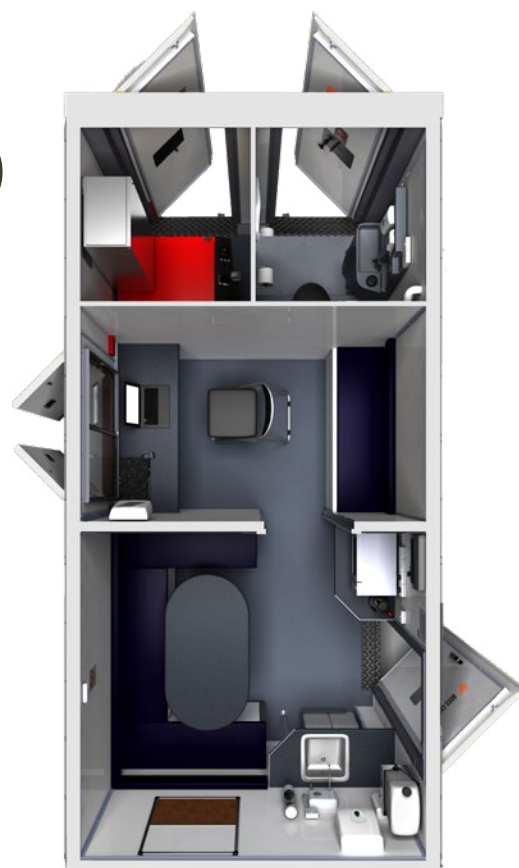

MAST KEY FEATURES:

- Extending pneumatic telescopic mast up to 3.22m
- Quick deployment time
- Ideal for all vehicle types
- Roof mounted resulting in minimal vehicle damage
- Constructed from stainless steel for durability
- Integrated 1000 lumens uplighter to identify hazards when raising mast
- Operates from vehicle's own battery system
- Automatic park facility with single and double tap parking
- On-board air regulator and compressor options
- Automatic obstruction sensor with auto stop and lock features
- 350° rotation of mast head, pan and tilt in all directions
- Extremely efficient, high performance LED lights offer high lumen output
- LED lighting benefits from solid state electronics, combined with rugged die cast housing

ARMADILLO XL+ ECO 4.0

Toilet/Office/Canteen Configuration

The towable Armadillo XL+ Eco 4.0 reduces emissions by up to 80% and is the perfect sustainable welfare option for up to 10 people. It houses all the features you'd expect from our Armadillo range, including a canteen, office, W/C, and a drying room.

Thanks to the unit being solar powered, it is ready to use as soon as it is delivered. And for those long nights or dark days when a little extra power is needed, the backup HVO-ready automatic generator ensures you're never without power.

ENVIRONMENTAL BENEFITS:

- CO2 emissions reduced up to 80% *
- Fuel costs reduced up to 80% *
- Low noise pollution - reduced by 58% *
- 0% NOx / SOx when solar battery is in use.
- Consumes an average 35 litres of fuel per week less than a standard cabin.
- 58% fewer generator hours means longer service intervals and reduced service costs. *
- More sustainable as less generator wear and tear lowers breakdown risk and extends lifespan
- Very little need to run generator for lights, USB charging and 3-pin sockets for computers, printers, etc.
- Help reduce your scope 3 emissions by less travel time associated with service visits (fuel use, carbon emissions, noise pollution, road congestion).

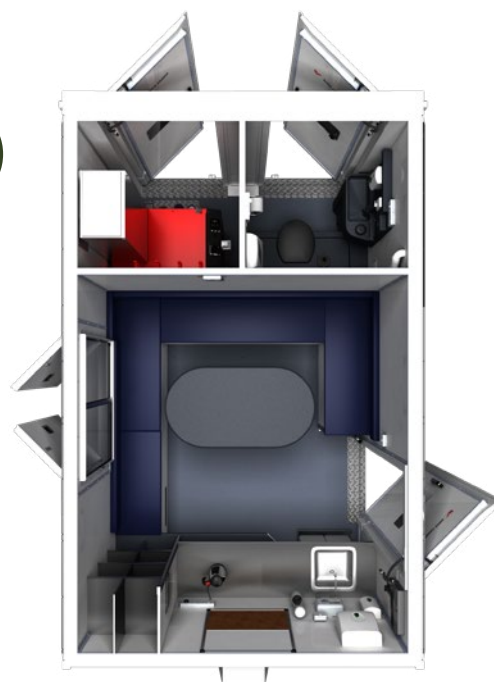

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Capacity for up to 10 people
- Stage 5 eco/hybrid generator
- Powered by solar panels
- Backed up by telematics

Product code	021007
Cabin dims	5988 (L) x 2300 (W) x 2398 (H) mm
Weight	2000kg
Power type	Hybrid solar
Water tank cap.	50L
Fuel tank cap.	58L
Waste tank cap.	132L combined
Layout	Canteen / office / W.C
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Water dispenser
- Fuel, waste & water servicing

ARMADILLO ECO 4.0

Toilet/Canteen Configuration

The Armadillo Eco 4.0 is the latest addition to the solid Armadillo family of welfare units and includes all the facilities you'd expect from the range, from a canteen suitable for 6 people, private WC, and a drying room.

The unit is solar-powered and comes with an automatic, HVO-ready stage 5 generator to ensure there is always sufficient 12v power, whilst saving you an impressive 35 litres of fuel each week*

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Capacity for up to 6 people
- Stage 5 eco/hybrid generator
- Powered by solar panels
- Backed up by telematics

ENVIRONMENTAL BENEFITS:

- CO2 emissions reduced up to 80% *
- Fuel costs reduced up to 80% *
- Low noise pollution - reduced by 58% *
- 0% NOx / SOx when solar battery is in use.
- Consumes an average 35 litres of fuel per week less than a standard cabin.
- 58% fewer generator hours means longer service intervals and reduced service costs.*
- More sustainable as less generator wear and tear lowers breakdown risk and extends lifespan
- Very little need to run generator for lights, USB charging and 3-pin sockets for computers, printers, etc.
- Help reduce your scope 3 emissions by less travel time associated with service visits (fuel use, carbon emissions, noise pollution, road congestion).

2+1+SOLAR DRYER / CHANGING ROOM

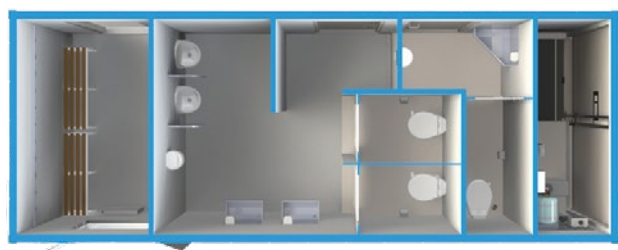

Unique in the market place, this is the only fully stand-alone, self powered unit to provide separate male and female W/C facilities along with the convenience of a heated drying/changing room.

An economical multi-roll DC/Diesel heater system provides thermostatically and timer controlled heating to the W/C and drying/changing rooms. The drying/changing room is equipped with changing benches and clothes hangers for up to 20 users.

KEY FEATURES:

- Solar powered with DC battery backup
- Integrated waste and water tanks
- Economic fresh flush toilets
- High level windows, anti vandal doors, robust steel construction
- PIR lighting and instant hot water
- Heated Drying/Changing room

Product code	042400
Dims (l x w)	24 x 9ft / 7.3 x 2.7m
Dry weight	6900kg
Power type	Solar
Water tank cap.	795L / 175gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	864L / 190gal
Layout	Drying / changing room, 2 male & 1 female toilet
Urinal	2
Cubicle	3
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Fuel, waste & water servicing
- Lockers

SOLAR DRYER / CHANGING ROOM

The 10x8 Solar dryer / changing room comes with 2 changing benches. The diesel powered heating system uses a fresh hot air system which provides efficient running costs through three 300 watt solar panels.

The unit has PIR controlled automatic LED lighting on entry, making it perfect for regular use on a busy site. The unit is fully secure with anti-vandal features along with heavy duty low level lifting eyes and fork lift inserts.

KEY FEATURES:

- Solar powered with DC battery backup
- External rain shrouds
- Insulated walls and ceilings
- PIR lighting
- Heated Drying/Changing room

Also available as a 20 x 8ft / 6.0 x 2.4m

Product code	031000
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	2000kg
Power type	Solar
Fuel tank cap.	68L / 15gal
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Lockers

SOLAR IBC

Our robust solar-powered self-contained IBC is the perfect solution for even the remotest of sites. It does not need a generator to run – it is powered by dual batteries which are charged by a 325w solar panel and has a high-pressure water pump.

It is delivered fully assembled with eyes for lifting via crane or Hiab, and fork pockets to enable easy movement around all sites.

So, when it gets to you all you need to do is add water and it is ready for use! To make things even easier for you, it also has an easy fill cap and a fill level sight gauge.

If needed, it can also be used with an add-on waste tank complete with pump and can have a mains water fill attachment added too.

The Garic Solar IBC is the perfect add-on for any site cabin, handwash or boot wash.

KEY FEATURES:

- Self contained system
- No generator required
- Easy fill cap
- 4 hours constant operation with one charge
- Fully assembled
- Robust construction

Product code	TBC
Dims (l x w)	1640 x 1085 x 1443mm
Dry weight	100kg
Solar panel	325w
Fresh water capacity	1000L / 220gal
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Low pressure mains feed connection
- Automatic waste pump
- Waste tank

SOLAR SHELTER

Complete with bench seating, this 10 x 8 solar shelter is open sided and made of robust steel.

KEY FEATURES:

- Versatile shelter for multi-purpose use
- Heavy duty, non-slip flooring
- Solar powered auto entry lighting (PIR)
- Low level lifting points
- Open sided

Product code	201002
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	1600kg
Power type	Solar
Capacity	Max 15 persons
Minimum hire	4 weeks

ADDITIONAL EXTRAS:

- Solar power
- LED lighting

ECO SOLAR LOO

The solar loo is the only fully flushing standalone toilet available that is powered entirely by patented solar technology. Equipped with flushing W.C and urinal, hot air hand dryer, hot and cold running water and lighting, the generator free unit requires very little maintenance, reduces CO₂ emissions and cuts fuel bills drastically.

KEY FEATURES:

- Secure steel construction
- Solar powered, generator free unit
- Hot water, regulation forearm sink and hand dryer
- Fully flushing W.C and urinal
- Fuel efficient and low in CO₂ emissions

Product code	040803
Dims (l x w)	8 x 5ft / 2.4 x 1.5m
Weight	1610kg
Power type	Hybrid solar
Water tank cap.	364L / 80gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	409L / 90gal
Layout	Toilet
Capacity	1 person
Urinal	1
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Fuel, waste & water servicing

SOLAR LOO TWIN + SHOWER

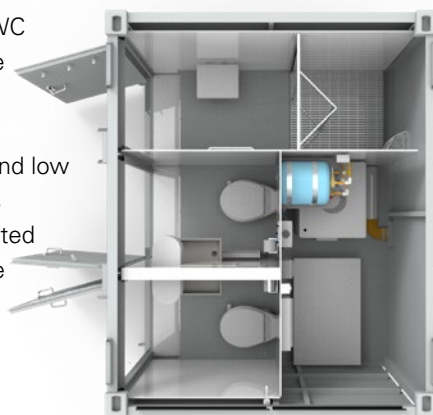

The Solar Loo Twin + Shower is a successful combination of the Solar Loo and Solar Shower.

Powered by our proven solar technology, this is a standalone steel constructed anti vandal 2 toilets and shower unit. It comes equipped with fully flushing toilets, elbow regulation sinks with hot and cold running water, hand dryers, separate shower, changing area and PIR lighting.

Diesel powered water and heating system with a radiator in each cubicle. The generator-free self-contained unit requires very little maintenance, reduces CO₂ emissions and cuts fuel bills dramatically.

KEY FEATURES:

- Secure steel construction
- Hot water and heating, regulation forearm sink and hand dryer
- Fully flushing WC
- Shower cubicle with seated changing area
- Fuel efficient and low CO₂ emissions
- Can be connected to mains waste and water.

Product code	041001
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	2500kg approx.
Power type	Hybrid solar
Water tank cap.	132gal / 600L
Fuel tank cap.	15gal / 68L
Waste tank cap.	180gal / 820L
Layout	2 x toilets, 1 x shower
Minimum hire	1 week

Complies with CDM regulations and can be used on sites with up to **25 people**.

ADDITIONAL EXTRAS:

- Fuel, waste & water servicing

HYBRID TOWER LIGHT

These tower lights have always been a leader in lowering carbon emissions, plus an added benefit of lowering running costs.

The VT-Hybrid lighting tower features LED floodlights which are powered by rechargeable batteries and have a running time of up to 8 hours.

TYPICAL APPLICATIONS INCLUDE:

- Events
- Rail
- Urban areas
- Emergency Services

KEY FEATURES:

- Average mast max height of 9m
- 340° telescopic mast rotation
- The lighting tower recharges the battery for 5 hours
- Hydraulic lifting system
- When the battery is running the lighting tower runs without noise or carbon emissions
- Carbon emissions reduced by 86%
- Strong vertical galvanized steel mast in 7 sections
- Bunded tank to avoid fuel spillage on the ground
- Lifting eye and forklift pockets
- AMOSS kit - added safety when handbrake is released mast automatically comes down
- Darkness sensor - switches lamps on and off with daylight
- The VT-Hybrid has a timer and a light sensor - saving you money
- Road towable

Product code	
Lamps	4 x 150w LED
Min. dims. (l x w x h)	10.6 x 4.5 x 7.8ft / 3.2 x 1.3 x 2.3m
Max. dims. (l x w x h)	10.6 x 6.8 x 27.8ft / 3.2 x 2.0 x 8.4m
Weight	1230kg
Fuel cap.	160L / 35gal
Run time	640hrs
Mast rotation	340°
Wind stability	110km/h
Illuminated area	3300m ²
Approx. fuel savings	£390 per month

ECO TOWER LIGHT

The Eco Tower Lights are compact and easy to transport from site to site. they are most innovative sustainable lighting towers available!

TYPICAL APPLICATIONS INCLUDE:

- Gas, oil & mining
- Special events
- Rural & hard to reach areas
- Emergency response
- Construction & work sites

KEY FEATURES:

- LED floodlights / instant bright light / no lamp warm up period.
- AMOS Safety System automatically lowers mast in moved / prevents mast hitting overhead power cables.
- Auto start / stop light sensor / reduces fuel and activity costs.
- Over 220 hours runtime / extends refuelling period / reduces onsite labour costs.
- 12 units fit on to a 40ft wagon for reduced delivery costs.

Product code	
Approx. CO ₂ emissions saving / mth	888kg
Fuel consumption per hour	0.6ml
Fuel cap.	110L
Run time on full tank	220hrs
Lighting head	6 x 150w LED
Light sensor	Standard

Max. dimensions	2.5 x 1.5 x 8.5m / 8.7 x 4.9 x 27ft
Weight (without fuel)	890kg
Mast rotation	340°

SOLAR ENERGY STORE

Developed to provide a fully automated 24/7 off grid power supply integrating renewable power and storage with a diesel/HVO powered backup generator to reduce fuel consumption and carbon emissions.

During daytime operation the energy created by the photovoltaic solar panels is harvested and stored in a large AGM/absorbed glass mat battery pack. The standby generator is configured to run only when the batteries are depleted or when there is a high AC /actual current load. This solar energy store is ideally set up to power 3 open plan cabins, toilet blocks, or similar.

Telemetry: All key values are monitored by Garic (fuel level, power input and output), and all historical performance information can be shared with the hirer.

KEY FEATURES:

- Anti vandal steel construction
- Low level lifting eyes
- Fork pockets
- Multipoint door lock system
- AC output load connection 1x 63amp 230v AC external socket (RCD protected)
- Remote monitoring, logging, software updates and control via GSM system (signal coverage provided)
- GPS position monitoring (requires GSM system to report)

ENVIRONMENTAL BENEFITS:

- Reduced energy costs
- Reduced environmental impact and carbon footprint.
- Enhance corporate image and reputation for

Product code

Dims (l x w)	21 x 8.0 x 8.49ft / 6.06 x 2.44 x 2.59m
Flooring	Plyboard & Vinyl
Weight	3700Kg
Power type	Solar Hybrid
Generator	18kva
Generator diesel capacity	500LTR/109G

ADDITIONAL EXTRAS:

- Distribution Board
- Cables

SOLAR POWER FRAME

Garic's cabin or floor mounted SPF are a simple and effective way to provide solar power to welfare cabins and accommodation units, this safe and secure steel frame that houses photovoltaic solar panels fits on any 24ft x 9ft cabin with ISO corners.

With one Solar power frame able to provide up to 3.2 kW of power the energy generated will be used to power heating, lighting and plug sockets within the unit.

At times when there is low demand or high solar input, any left-over power is diverted to a connected solar energy store or battery storage unit.

This sustainable power solution will allow customers to minimise generator run time reducing fuel costs and carbon emissions.

Our SPF can be utilised on larger site setups by using multiple frames to meet growing power demands as sites develop.

KEY FEATURES:

- Increase competitive advantage.
- Roof mounted or free standing.
- Multiple frames for large site setup.
- Steel construction.
- Fork pockets.
- Lifting eyes.
- Stackable for transport and storage.
- ISO fixings.
-

ENVIRONMENTAL BENEFITS:

- Reduced energy costs
- Reduced environmental impact and carbon footprint.
- Enhance corporate image and reputation for environmental stewardship.

Product code

Dims (l x w)	24ft x 9ft / 7.3m x 2.7m
Weight	TBC
Plug Connection	32amp
Unit Power Output	3.2KW

ADDITIONAL EXTRAS:

- Battery storage unit
- Solar Energy Store
- Distribution board

ENERGY STORE

With the introduction of battery power Garic now offers an alternative solution to power on site. With many applications, battery power now provides a solution for both air and noise pollution; with the added benefit of saving on fuel costs.

The Energy Store provides emission-free, silent power. The energy storage system works with Solar power frames solar energy store or diesel generators to reduce carbon emissions and fuel usage by up to 80%. When used with renewable energy sources, it provides endless hours of zero-emission power.

KEY FEATURES:

- Low charge time
- ECM 7" Touch Screen Control Module
- Forklift Pockets, Lift & Drag Skid, Lifting Ring
- Telematics
- Water/Ingress Protection

ENVIRONMENTAL BENEFITS:

- Reduced energy costs
- Reduced environmental impact and carbon footprint.
- Enhance corporate image and reputation for environmental stewardship

Introducing the
Microgrid

- 1

 **Capture**
Energy
- 2

 **Store**
Energy
- 3

 **Supply**
Units on grid are supplied with energy

A sustainable scalable solution that caters for welfare power needs, from a small site through to a range of medium and larger site solutions.

The Microgrid uses renewable power, harnessed from solar energy frames that lock on to any existing 24 x 9 accommodation units.

The solar energy from the frames is then stored in a battery energy storage solution, which can be supplemented with generated power if required.

The system includes the Solar Power Frame, the Solar Energy Battery and / or the Solar Energy Store and can scale up modularly to suit different sizes, shapes and energy requirements of sites.

A Garic solution to
your energy needs

SELF CONTAINED WELFARE

Static and Mobile Welfare

Taking care of your team is fundamental to the success of your site. Garic's welfare range are designed to be comfortable and convenient for your team, yet remain robust and resilient enough for heavy duty use. From self-contained eight person welfare units to mobile staff support, Garic can supply and service every aspect of your welfare needs, not just complying with, but exceeding your legal obligations.

5 Star Service

We provide the option of a 5 star service with all units supplied - this includes removal of foul waste, replenishment of fresh water, toilet rolls, hand soap and diesel. Alternatively we can tailor the service to suit your requirements.

COMBI CABIN JUNIOR

The Garic Combi Cabin Junior has a separate toilet and canteen area and comfortably accommodates up to 4 people. This self-contained welfare unit is delivered with water and power supplies already connected so it's perfect for a quick site set up!

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 4 operatives
- Diesel powered 240v generator
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C and forearm sink
- Microwave & kettle included

Product code	31402
Dims (l x w)	14.5 x 8ft / 4.4 x 2.4m
Weight	3545kg
Power type	Generator
Water tank cap.	364L / 80gal
Fuel tank cap.	268L / 59gal
Waste tank cap.	409L / 90gal
Layout	Toilet / canteen or office / toilet
Capacity	4 persons
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Waste & water servicing
- Water dispenser
- Additional hours pack available
- Fridge

COMBI CABIN

The Garic Combi Cabin is an anti-vandal, steel constructed and fully self-contained unit with all power, waste and water tanks inbuilt. Ready for use within seconds, the Combi Cabin has canteen facilities for eight, a single person office, W.C and urinal and is powered by a 240v

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 8 operatives and single person office
- Diesel powered 240v generator
- 10 point anti-vandal door
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C, urinal and forearm sink
- Microwave & kettle included

Product code	32402
Dims (l x w)	24 x 9ft / 7.3 x 2.7m
Weight	6500kg
Power type	Generator
Water tank cap.	795L / 175gal
Fuel tank cap.	268L / 59gal
Waste tank cap.	864L / 190gal

- Water dispenser
- Additional hours pack available
- Fridge

COMBI CABIN XL

The Combi Cabin XL is a two-part unit. The first section has a Gen Series 240v generator with a standard canteen and toilet layout. Optional configurations are available for the second section e.g. office, extra canteen and Drying/Changing room. The Combi Cabin XL can accommodate up to 12 people.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 12 operatives and single person office
- Diesel powered 240v generator
- 10 point anti-vandal door
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C, urinal and forearm sink
- Microwave & kettle included

Product code	32406
Dims (l x w)	34 x 9ft / 10.3 x 2.7m
Weight	6500kg + 1700kg
Power type	Generator
Water tank cap.	795L / 175gal
Fuel tank cap.	268L / 59gal
Waste tank cap.	864L / 190gal

Capacity	12 persons
Urinal	1
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Waste & water servicing
- Water dispenser
- Additional hours pack available
- Fridge
- Fly lead

COMBI CABIN 2XL

Garic's 2XL Combi Cabin can cater for up to 20 people. The cabin has a toilet and canteen, however an office, extra canteen or drying/ changing room can be added if required. This welfare unit is perfect for a larger site where space is restricted and optional configurations are available for the second section e.g. office, extra canteen and drying/ changing room.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 20 operatives
- Diesel powered 240v generator
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C and forearm sink
- Microwave & kettle included

COMBI CABIN 3XL

The 3XL can accommodate any welfare requirements that a larger site might require. Providing facilities for up to 24 workers, the Combi Cabin 3XL has a canteen and toilet however there are a number of optional configurations which are available for the second section e.g. office, extra canteen and drying/changing room.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 24 operatives and single person office
- Diesel powered 240v generator
- 10 point anti-vandal door
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C, urinal and forearm sink
- Microwave & kettle included

Product code	32408
Dims (l x w)	48 x 9ft / 14.6 x 2.7m
Weight	6500kg + 3100kg
Power type	Generator
Water tank cap.	795L / 175gal
Fuel tank cap.	240L / 53gal
Waste tank cap.	864L / 190gal
Layout	(Canteen, toilet & office) + optional configurations
Capacity	24 persons
Urinal	1
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Waste & water servicing
- Water dispenser
- Additional hours pack available
- Fridge
- Fly lead

**HVO
enabled
unit**

COMBI CABIN ECO SERIES

This Combi Cabin Eco is solar powered and backed up by a bespoke 12v super silent generator which stops and starts as required.

Each is fitted with low voltage LED lighting throughout and hot and cold running water is available in both the canteen and toilet area.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 8 operatives & single person office
- Solar powered with a back up generator
- Inclusive of all lighting, heating and hot water
- Eco-flush W.C and urinal
- Instant boiling water, fridge freezer and microwave

Product code	032401
Dims (l x w)	24ft x 9ft / 7.3 x 2.7m
Weight	6200kg
Power type	Hybrid solar
Water tank cap.	795L / 175gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	864L / 190gal
Layout	Office / canteen / W.C
Sockets	12v
Capacity	8 persons
Urinal & cubicle	1
Shower	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Waste & water servicing
- Water dispenser
- Additional hours pack available
- Additional solar panels

COMBI CABIN ECO SERIES+

Taking our industry respected Combi Cabin to the next generation but without losing any of its power.

The Eco Series+ is powered by a patented solar system and is proven to reduce fuel bills by up to £90 per week.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 8 operatives & single person office
- Completely solar powered no need for a back up generator
- Inclusive of all lighting, heating and hot water
- Eco-flush W.C and urinal
- Drying/Changing room and shower
- Instant boiling water, fridge freezer and microwave
- Up to 90% more fuel efficient

Product code	032400
Dims (l x w)	24 x 9ft / 7.3 x 2.7m
Weight	5635kg
Power type	Solar
Water tank cap.	795L / 175gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	864L / 190gal
Layout	Office / canteen / W.C / drying/ changing room / shower
Sockets	12v
Capacity	8 persons
Urinal & cubicle	1
Shower	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Waste & water servicing
- Water dispenser
- Additional hours pack available
- Additional solar panels

COMBI CABIN ECO 1.5

Our next generation fully self-contained, solar-powered unit backed up by a hybrid generator. This eco-focussed product will also help you to reduce your carbon footprint as it's a refurbished older unit!

The new Combi Cabin Eco 1.5 has canteen facilities for ten people, drying/changing room and 2 x W.C. It is fully CDM compliant with separate male and female facilities.

KEY FEATURES:

- Solar Charging & Battery Power Technology/hybrid Generator on board
- Full CDM compliant unit / Energy Performance Rated @A
- Fully insulated
- Refurbished, recycled unit reducing carbon footprint
- Inclusive of all lighting, heating and hot water
- Drying/Changing room with bench seating
- Fridge freezer and microwave
- Canteen for 10 operatives
- Separate, flushing, male and female toilets with outdoor toilet occupancy LED lights

Product code	032410
Dimensions (l x w x h)	7.3 x 2.75 x 2.5 M / 24 x 9 x 8 F
Power type	Solar hybrid
Structural material	Steel
Layout	M+F toilets, canteen, drying/changing room
Water tank capacity	795L / 175 gal
Waste tank capacity	864L / 190 gal
Heating	Blown-air
Heating fuel cap.	68L / 15 gal
Power type	Generator hybrid
Battery pack	Yes
Generator fuel capacity	150L
Solar panels	6 x 325W
Lights	LED
Hand dryer	Blown-air
Water heater	15L
Taps	Non-convulsive
Toilet	Foot pedal
Flooring	Anti skid
Carbon monoxide detector	Yes
Outdoor toilet occupancy LED	Dual colour LED
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

2+1+SOLAR DRYER / CHANGING ROOM

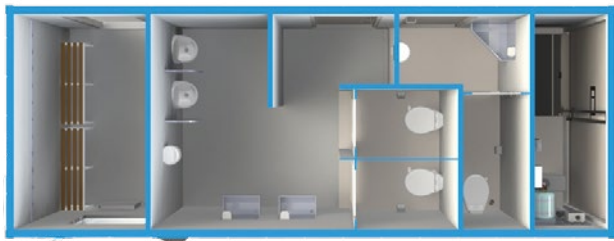

Unique in the market place, this is the only fully stand-alone, self powered unit to provide separate male and female W/C facilities along with the convenience of a heated drying/changing room.

An economical multi-roll DC/Diesel heater system provides thermostatically and timer controlled heating to the W/C and drying/changing rooms. The drying/changing room is equipped with changing benches and clothes hangers for up to 20 users.

KEY FEATURES:

- Solar powered with DC battery backup
- Integrated waste and water tanks
- Economic fresh flush toilets
- High level windows, anti vandal doors, robust steel construction
- PIR lighting and instant hot water
- Heated drying / changing room

Product code	042400
Dims (l x w)	24 x 9ft / 7.3 x 2.7m
Dry weight	6900kg
Power type	Solar
Water tank cap.	795L / 175gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	864L / 190gal
Layout	Drying / changing room, 2 male & 1 female toilet
Urinal	2
Cubicle	3
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Fuel, waste & water servicing
- Lockers

SOLAR DRYER / CHANGING ROOM

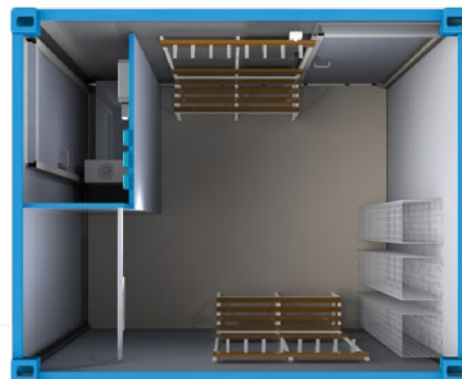

The 10x8 Solar dryer / changing room comes with 2 changing benches. The diesel powered heating system uses a fresh hot air system which provides efficient running costs through three 300 watt solar panels.

The unit has PIR controlled automatic LED lighting on entry, making it perfect for regular use on a busy site. The unit is fully secure with anti-vandal features along with heavy duty low level lifting eyes and fork lift inserts.

KEY FEATURES:

- Solar powered with DC battery backup
- External rain shrouds
- Insulated walls and ceilings
- PIR lighting
- Heated drying / changing room

Also available as a 20 x 8ft / 6.0 x 2.4m

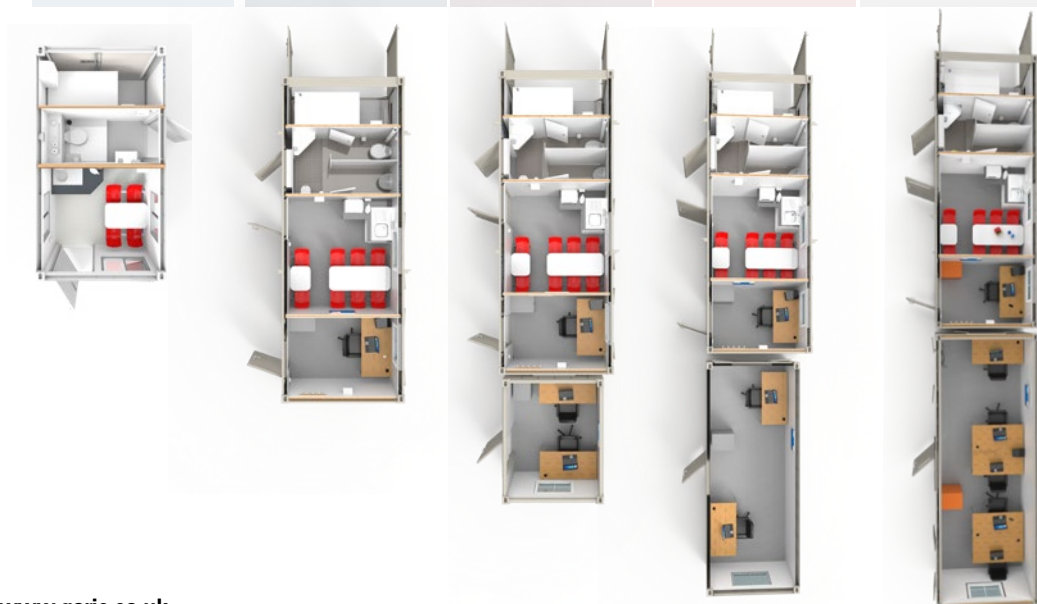

Product code	031000
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	2000kg
Power type	Solar
Fuel tank cap.	68L / 15gal
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Lockers

WELFARE VAN

(Variant On Model)

Our van is ideal for a whole multitude of site environments by the very nature of its all inclusive design which brings transport, site welfare facilities together in one solution. Our brand new fleet conforms to the latest Type Approval regulations.

KEY FEATURES:

- Private W.C with eco-flush toilet
- Canteen area with sink, instant hot water & microwave
- Overhead storage area
- Chapter 8 regulation livery, front and rear LED beacons
- DSVa specification seat belts
- Drying/Changing room and storage area
- Cassette system on latest model

Product code	010000
Dims (l x w)	20 x 8ft / 6.1 x 2.4m
Weight	2850kg
Water tank cap.	45L / 10gal
Fuel tank cap.	80L / 17.5gal
Waste tank cap.	20L / 4.3gal
Layout	Canteen / W.C
Capacity	7 persons
USB	4
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Waste & water Servicing
- Water dispenser
- Additional mileage pack available
- First aid kit
- Fire extinguisher

HYBRID WELFARE VAN

(Variant On Model)

Introducing the next evolution in welfare hire!

The Hybrid Welfare Van incorporates the latest in hybrid technology improving welfare, the environment and safety on site. This mobile unit can run the welfare facilities solely from its solar panels meaning that no engine has to be running whilst stationary and the facilities can be used throughout the day. Not only does this create a safer environment for workers and has less impact on the environment this could save you £££s on your bills.

KEY FEATURES:

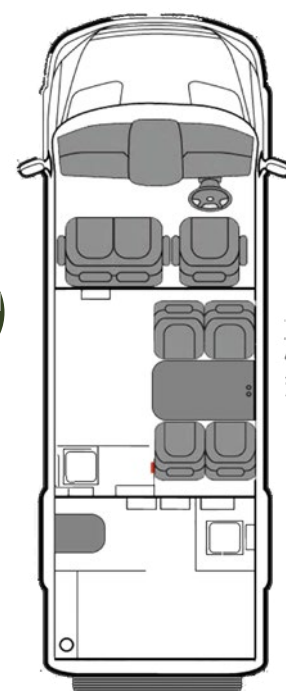

- 200Kg of carbon savings per week (standard use)*
- Annualized circa 10 ton of CO2 savings*
- Private W.C with eco-flush toilet
- Canteen area with sink, instant hot water & microwave
- Overhead storage area
- Chapter 8 regulation livery, front and rear LED beacons
- DSVa specification seat belts
- Drying / changing room and storage area
- Cassette system
- Smart & efficient power storage / lithium battery
- Lowest carbon footprint van on the market
- Stores & saves energy
- Auxiliary button to jump start engine
- Unit distributes power through 12v and 240v circuit
- Low volt LED strobes
- Automatic back up power available

Product code	010001
Dims (l x w)	20 x 8ft / 6.1 x 2.4m
Weight	2850kg
Water tank cap.	45L / 10gal
Fuel tank cap.	80L / 17.5gal
Waste tank cap.	20L / 4.3gal

HYBRID WELFARE VAN 2.0

Thanks to the latest manufacturing processes, the Hybrid Welfare Van 2.0 brings modern comfort to the ultimate mobile welfare vehicle. We have combined the toilet and drying room to create a larger space without compromising on facilities. Premium telematics comes as standard on this fleet, meaning you have access to crucial data such as real-time location and event tracking, fuel efficiency, driver behaviour insights, and much more. And with this welfare van being HVO compatible, you can reduce your scope 1 emissions.

KEY FEATURES:

- Premium telematics included.
- Chapter 8 regulation livery, front and rear LED beacons and additional Low-level strobes (programmable) front and rear
- DSVA specification seat belts with reflective strips
- Smart & efficient power storage / lithium battery
- Unit distributes power through 12V and 240V circuit
- Automatic back up power available
- Rear parking sensors and reversing camera
- Silent Welfare mode
- Solar panels harvest up to 600w, 40amp/hrs in ideal condition.
- Keyless Running System. When 'Run-lock' button is pressed the engine will remain on for one hour, allowing the keys to be removed from the ignition.
- Vehicle can be locked from the outside to allow for Safe working in close proximity.

ENVIRONMENTAL BENEFITS:

- 200Kg of carbon savings per week (standard use)* (35-70L diesel p/w)
- Annualised circa 10 ton of CO2 savings
- Low carbon footprint (47.9mpg)
- HVO ready

Product code	010003
Dims (l x w)	6.1 x 2.4m / 20 x 8ft
Weight	2850kg

ECO WELFARE TRAILER

The Garic Eco Welfare Trailer, like the Combi Cabin, is an anti-vandal, steel constructed and fully self-contained unit with all power, waste and water tanks inbuilt.

The unit requires flat level hard surface - no need for specialist site preparation.

The Welfare Trailer also has large canteen facilities (up to 15 person) office space, 2 x W.C, drying/changing room and is powered by diesel hybrid generator backed up by solar power.

With the ease of deployability and ease of use, the unit can be working just as soon as required.

KEY FEATURES:

- Anti-vandal steel constructed units
- Canteen for 15 operatives and office space
- Inclusive of all lighting, heating and hot water
- Fully flushing W.C and forearm sink
- Hybrid Solar
- 10 point anti-vandal door
- Upgradable interior available on request

Product code	024001
Dims (l x w)	44 x 8ft / 13 x 2.5m
Weight	13,988kg
Power type	Hybrid solar
Water tank cap.	800L / 176gal
Fuel tank cap.	150L / 33gal
Waste tank cap.	850L / 187gal
Capacity	15 persons
Urinal	1
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Fuel, waste & water servicing
- Water dispenser
- Additional hours pack available
- Fridge

** Wagon is not included within the hire and is for transport only

ARMADILLO

The Armadillo welfare cabin is a road towable, self-contained unit. The 6 person unit includes a canteen with microwave, instant hot water boiler and a private W.C. It can be towed into position, placed and then secured making it ready for use within minutes.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Auto-frost protection
- Private W.C
- Canteen with kettle and microwave
- Powered by a diesel generator

Product code	020602
Dims (l x w)	12 x 7.5ft / 3.6 x 2.3m
Weight	1835kg
Power type	Generator
Water tank cap.	64L / 14gal combined
Fuel tank cap.	68L / 15gal
Waste tank cap.	132L / 29gal combined
Layout	Canteen / W.C
Capacity	6 persons
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Water dispenser
- WiFi
- Additional hours pack available
- Fuel, waste & water servicing

ARMADILLO XL

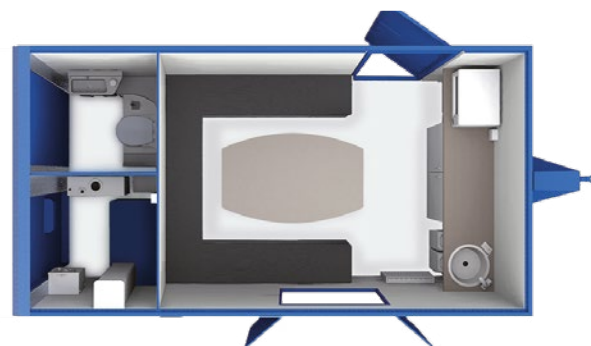

The Garic Armadillo XL towable welfare unit offers the same unrivalled comfort and convenience as our static welfare cabin range and is ready for you to use on site as soon as it's in position.

Comprising of a 10-man canteen, private WC facilities and drying/ generator room, the Armadillo is a robust and secure mobile welfare unit suitable for even the most remote and demanding of environments.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Auto-frost protection
- Powered by a diesel generator
- Canteen with kettle & microwave
- Private W.C

Product code	021002
Dims (l x w)	17 x 7.5ft / 5.2 x 2.3m
Weight	2335kg
Power type	Generator
Water tank cap.	64L / 14gal combined
Fuel tank cap.	68L / 15gal
Waste tank cap.	132L / 29gal combined

Minimum hire	1 week

ADDITIONAL EXTRAS:

- Water dispenser
- WiFi
- Additional hours pack available
- Fuel, waste & water servicing

ARMADILLO ECO

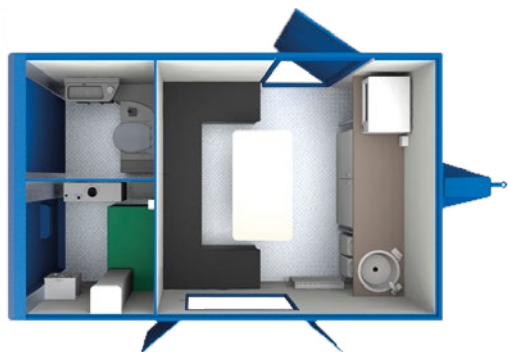

The 6 person Armadillo Eco is a solar powered road towable welfare unit proven to reduce fuel bills by up to £100 per Week.

The unit includes a canteen with microwave and instant hot water boiler and a private W.C. It can be towed into position, places then secured making it ready for use within minutes.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Fully lockable security doors
- Canteen for 6 persons
- Auto-frost protection
- Solar powered
- Reduces fuel bills by up to £100 per week
- Hot water boiler and microwave included

Product code	020601
Dims (l x w)	12 x 7ft / 3.6 x 2.1m
Weight	1700kg
Power type	Hybrid solar
Water tank cap.	64L / 14gal combined
Fuel tank cap.	68L / 15gal
Sockets	240v
Waste tank cap.	132L / 29gal combined
Layout	Canteen / W.C
Capacity	6 persons

ARMADILLO XL+

Toilet / office / canteen configuration

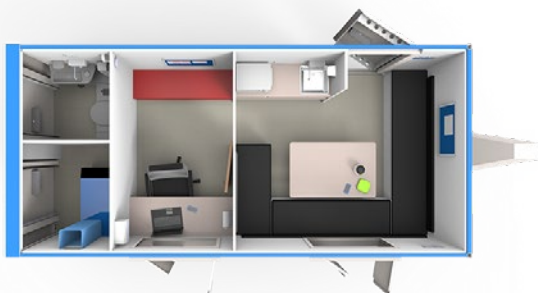

The Armadillo XL+, is a road towable welfare unit which is hybrid solar powered. It consists of an office, canteen, WC facilities and generator room. The unit offers unrivalled comfort and convenience and is ready to use as soon as it's in position. Each eco welfare unit is solar powered and backed up by a bespoke 12v super silent generator which stops and starts as required.

The completely self-contained welfare units are constructed from steel and feature LED lighting, hot and cold running water – available in both the canteen and toilet area, microwave, table and canteen seating for ten operatives. Most units also feature generator auto-frost protection to ensure your operatives' welfare is maintained, even during the harshest of conditions.

Additional security features include a hydraulic isolation switch, fully secure window shutters and 5-point deadlocking system.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Canteen for 6-8 persons
- Hybrid solar powered
- Integral generator with auto-frost protection
- Up to 50% more fuel efficient

Product code	021004
Dims (l x w)	18 x 7ft / 5.4 x 2.1m
Weight	1980kg
Power type	Hybrid solar
Water tank cap.	25L / 5.5 gal + 9L / 2gal - canteen
Fuel tank cap.	68L / 15gal
Waste tank cap.	25L / 5.4gal combined
Layout	Canteen / office / W.C
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

ARMADILLO XL+ ECO 4.0

Toilet/Office/Canteen Configuration

The towable Armadillo XL+ Eco 4.0 reduces emissions by up to 80% and is the perfect sustainable welfare option for up to 10 people. It houses all the features you'd expect from our Armadillo range, including a canteen, office, W/C, and a drying room.

Thanks to the unit being solar powered, it is ready to use as soon as it is delivered. And for those long nights or dark days when a little extra power is needed, the backup HVO-ready automatic generator ensures you're never without power.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Capacity for up to 10 people
- Stage 5 eco/hybrid generator
- Powered by solar panels
- Backed up by telematics

ENVIRONMENTAL BENEFITS:

- CO2 emissions reduced up to 80% *
- Fuel costs reduced up to 80% *
- Low noise pollution - reduced by 58% *
- 0% NOx / SOx when solar battery is in use.

Product code	021007
Cabin dims	5988 (L) x 2300 (W) x 2398 (H) mm
Weight	2000kg
Power type	Hybrid solar
Water tank cap.	50L
Fuel tank cap.	58L
Waste tank cap.	132L combined
Layout	Canteen / office / W.C
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi 
- Water dispenser
- Fuel, waste & water servicing

ARMADILLO ECO 4.0

Toilet/Canteen Configuration

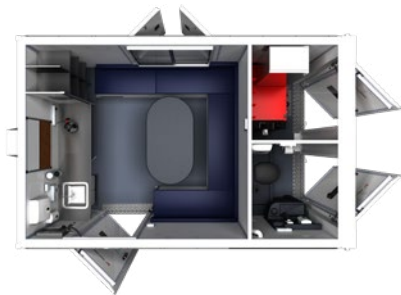

The Armadillo Eco 4.0 is the latest addition to the solid Armadillo family of welfare units and includes all the facilities you'd expect from the range, from a canteen suitable for 6 people, private WC, and a drying room. The unit is solar-powered and comes with an automatic, HVO-ready stage 5 generator to ensure there is always sufficient 12v power, whilst saving you an impressive 35 litres of fuel each week*

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Capacity for up to 6 people
- Stage 5 eco/hybrid generator
- Powered by solar panels
- Backed up by telematics

ENVIRONMENTAL BENEFITS:

- CO2 emissions reduced up to 80%*
- Fuel costs reduced up to 80%*
- Low noise pollution - reduced by 58%*
- 0% NOx / SOx when solar battery is in use.

Product code	020603
Cabin dims	4775 (L) x 2300 (W) x 2398 (H) mm
Weight	1675kg
Power type	Hybrid solar
Water tank cap.	50L
Fuel tank cap.	58L
Waste tank cap.	132L combined
Layout	Canteen / W.C
Minimum hire	1 week

ADDITIONAL EXTRAS:

- WiFi
- Water dispenser
- Fuel, waste & water servicing

ARMADILLO XL+2

Toilet / office / canteen configuration

An extension of the Armadillo XL+, the Armadillo XL+2 is inclusive of male and female toilets, still incorporating an office in the same footprint – maximizing space and facilities for your site. Towable, easy to use and self-contained perfect for any job large or small.

KEY FEATURES:

- Road towable, self-contained secure steel unit
- Auto-frost protection
- Powered by solar and back up diesel generator
- Canteen with kettle & microwave
- 2 x private W.C
- 12v LED Lighting with PIR
- Air blown heating system
- Inverter powered sockets and USB connection
- Table and bench seating
- Canteen with kettle & microwave
- Recycled non-slip flooring
- Steel personnel doors to four separate areas
- Removable low level lifting eyes
- Fixed low level lifting & fork pockets
- Open-plan option available

Now available in 2 different configurations, one with canteen and office, the other with a larger canteen area.

Product code	021005
Dims (l x w)	18 x 7ft / 5.4 x 2.1m
Weight	2,450kg
Possible Gross Weight:	2,565kg
Power type	Hybrid solar
Water tank cap.	25L / 5.5 gal + 9L / 2gal - canteen
Fuel tank cap.	68L / 15gal
Waste tank cap.	580L / 128gal combined
Layout	2 x toilet, warm room / generator, canteen & office
Capacity	6-8 persons
Cubicle	2

ADDITIONAL EXTRAS:

- WiFi
- Additional hours pack available
- Fuel, waste & water servicing
- Water dispenser

HALO TOWER LIGHT

The Halo Tower light is only available with the Armadillo XL+2 and is a robust and reliable extending mast system. The versatile retractable roof mounted mast system offers an easily deployable flood lighting solution.

MAST KEY FEATURES:

- Extending pneumatic telescopic mast up to 3.22m
- Quick deployment time
- Ideal for all vehicle types
- Roof mounted resulting in minimal vehicle damage
- Constructed from stainless steel for durability
- Integrated 1000 lumens uplighter to identify hazards when raising mast
- Operates from vehicle's own battery system
- Automatic park facility with single and double tap parking
- On-board air regulator and compressor options
- Automatic obstruction sensor with auto stop and lock features
- 350° rotation of mast head, pan and tilt in all directions
- Extremely efficient, high performance LED lights offer high lumen output
- LED lighting benefits from solid state electronics, combined with rugged die cast housing

ECO SOLAR LOO

The solar loo is the only fully flushing standalone toilet available that is powered entirely by patented solar technology. Equipped with flushing W.C and urinal, hot air hand dryer, hot and cold running water and lighting, the generator free unit requires very little maintenance, reduces CO2 emissions and cuts fuel bills drastically.

KEY FEATURES:

- Secure steel construction
- Solar powered, generator free unit
- Hot water, regulation forearm sink and hand dryer
- Fully flushing W.C and urinal
- Fuel efficient and low in CO2 emissions

Product code	040803
Dims (l x w)	8 x 5ft / 2.4 x 1.5m
Weight	1610kg
Power type	Hybrid solar
Water tank cap.	364L / 80gal
Fuel tank cap.	68L / 15gal
Waste tank cap.	409L / 90gal
Layout	Toilet
Capacity	1 person
Urinal	1
Cubicle	1
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Fuel, waste & water servicing

SOLAR LOO TWIN + SHOWER

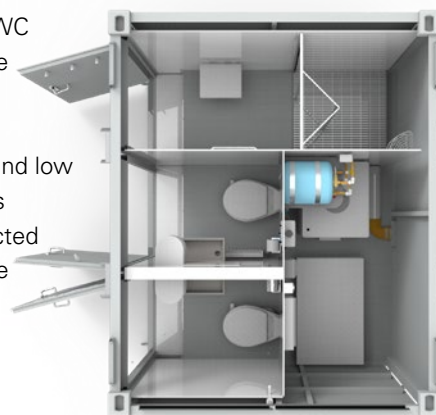

The Solar Loo Twin + Shower is a successful combination of the Solar Loo and Solar Shower.

Powered by our proven solar technology, this is a standalone steel constructed anti vandal 2 toilets and shower unit. It comes equipped with fully flushing toilets, elbow regulation sinks with hot and cold running water, hand dryers, separate shower, changing area and PIR lighting.

Diesel powered water and heating system with a radiator in each cubicle. The generator-free self-contained unit requires very little maintenance, reduces CO2 emissions and cuts fuel bills dramatically.

KEY FEATURES:

- Secure steel construction
- Hot water and heating, regulation forearm sink and hand dryer
- Fully flushing WC
- Shower cubicle with seated changing area
- Fuel efficient and low CO2 emissions
- Can be connected to mains waste and water.

Product code	041001
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	2500kg approx.
Power type	Hybrid solar
Water tank cap.	132gal / 600L
Fuel tank cap.	15gal / 68L
Waste tank cap.	180gal / 820L
Layout	2 x toilets, 1 x shower
Minimum hire	1 week

Complies with CDM regulations and can be used on sites with up to **25 people**.

ADDITIONAL EXTRAS:

- Fuel, waste & water servicing

UNPOWERED WELFARE

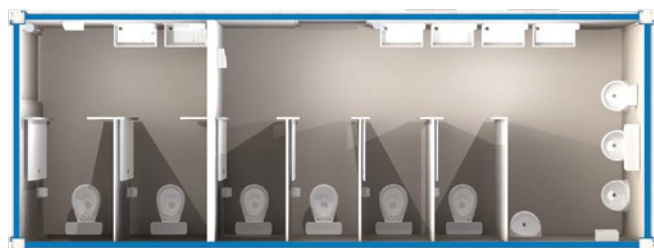

4 + 2 MAINS TOILET BLOCK

The 24 x 9ft, 4+2 combination features six non-chemical fully flushing toilets and four urinals. Very economical, each toilet only uses one pint of water per flush.

KEY FEATURES:

- Mains powered
- High level windows
- Anti-vandal construction with multi-locking doors
- Regulation forearm sinks & fully flushing toilets
- Separate male and female facilities
- PIR lighting

The flexible Modular Building system

Garic's Modular Building system consists of a robust steel framed construction that corresponds with the ISO standard dimensional and geometrical product specifications.

The system's interchangeable wall, window and door panels allow clients the flexibility to choose an internal room arrangement that is specific to their requirements. Bespoke configurations, timber frame and full steel structures are also available.

Service, maintenance and installation

Using in-house logistics, our comprehensive installation and 24 hour maintenance service is as flexible as our modular system. Our fully experienced team can handle everything right up to collecting your keys, planning permission, power supply, plumbing, furniture, carpets and electrical goods.

Product code	160000
Minimum hire	52Week

The key benefits of Modular Buildings

- Fully interchangeable side elevation panels
- Large open plan areas
- Excellent insulation values
- Helps reduce carbon footprint
- Stackable up to three storeys high
- Reduces traditional dimensional footprint by up to **30%**
- The most flexible modular building on the market

The Modular Buildings structural design eradicates the need for the traditional linking of central corridors between each unit and can be stacked up to three storeys high. This design maximises internal space and gives the client the opportunity to create large open plan areas, whilst reducing the external footprint of the building.

Various configurations Accommodation

Whether you're looking for a portable office, portable accommodation hire, a site office or a portable cabin, at Garic we understand that no two jobs are the same when it comes to site accommodation.

We supply a vast array of mains powered anti-vandal temporary buildings which can be configured in any way you require. They can be double stacked (and supplied with steps and landings), linked in any variation and offer a multitude of internal layout options. This opens up a whole host of usage options from site offices and meeting rooms to canteens and drying/changing rooms - or a mix of all of them!

10 X 8' SITE ACCOMMODATION

The 10 x 8 site cabin can be configured to suit specific requirements.

All can be double stacked (and supplied with steps and landings), linked in any variation and offer a multitude of internal layout options.

KEY FEATURES:

- Anti-vandal steel constructed units
- UPVC double glazed tilt & turn windows
- External anti-vandal steel window shutters
- Low level lifting points
- Stackable (x2 high)
- Complete with furniture pack

Product code	101000
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	1500kg
Power type	External generator / mains power
Layout	Open plan
Minimum hire	4 weeks

ADDITIONAL EXTRAS:

- WiFi 
- Water dispenser
- Generator
- Water tank
- Fuel tank
- Staircase and landing
- Stacking and destacking

20 X 8' SITE ACCOMMODATION

With a number of configurations possible, every 20 x 8 anti-vandal open plan portable building features low level heavy duty lifting eyes to comply with all health and safety and site requirements.

We take great pride in the fact that the majority of our portable cabins are less than 12 months old which ensures our fleet is durable and of the best quality. All are available for long or short term hire.

KEY FEATURES:

- Anti-vandal steel constructed units
- UPVC double glazed tilt & turn windows
- External anti-vandal steel window shutters
- Low level lifting points
- Stackable (x2 high)
- Complete with furniture pack

Product code	102000
Dims (l x w)	20 x 8ft / 6 x 2.4m
Weight	2400kg
Power type	External generator / mains power
Layout	Open plan
Minimum hire	4 weeks

ADDITIONAL EXTRAS:

- WiFi

NEW
for 2023

24 X 9' ACCOMMODATION 2.0

Garic's new 24x9 Accommodation 2.0 EPC tested unit takes our accommodation offering to the next generation. Completely flexible to suit your requirements. Whether you need an office or canteen it's the perfect solutions for your accommodation needs.

KEY FEATURES:

- Anti Vandal steel construction
- Fully insulated.
- UPVC double glazed tilt and turn windows.
- External anti vandal steel window shutters.
- Low level lifting points and fork pockets.
- Stackable (x2 high)
- Office or canteen configuration.

ENVIRONMENTAL BENEFIT:

The 24x9 Accommodation 2.0 when linked with our Combi Cabin Eco 1.5, Solar Energy Store, Solar Power Frame and Battery Energy Store, provides a fully sustainable power solution for up to 25 people that can be configured as a canteen or office and it can be fitted with an air source heat pump.

Product code	102400
Dims (l x w)	24 x 9 ft / 7.3 x 2.7m
Flooring	Plyboard & Vinyl
Power type	Unpowered
Heating	2 x 1kw
External Socket	32 AMP
Minimum hire	4 weeks

ADDITIONAL EXTRAS:

- Stairs/gantry
- External Lighting,
- Wi-Fi 
- Watercooler
- Solar power frame
- Solar energy store
- Battery Energy Store
- Air source heater

2 BED SLEEPER UNITS

The 24x9 Sleeper Unit has 2 bedrooms that each consist of lockable timber doors, UPVC windows, blinds, an aerial socket, heater and 2x13amp double sockets. The rooms are inclusive of a bed-base, bedside table and wardrobe. The unit is also inclusive of a bathroom including a shower, vanity unit, sink with mixer tap, water heater, mirror and W.C. (2.1mx1.9m or 6.8ftx6.2ft). The unit is perfect for those remote locations and longer projects where overnight accommodation is required.

KEY FEATURES:

- Anti-vandal steel constructed units
- 2 single bedrooms
- Low level lifting lugs
- Multi point locking system
- 63Amp external plug & socket
- External TV aerial
- Emergency exit lights, LEDs and smoke alarms

Shelters & Storage Solutions

Garic's shelters provide effective environmental protection for personnel, vehicles and equipment.

Site storage is a key factor in on-site security. Theft and vandalism is always, unfortunately, a constant concern. However, with Garic's range of storage products, you can give your workers a safe and secure place to store valuable tools and equipment overnight or when it's not in use.

GARIC 
ON-DEMAND, ON-SITE, ON-TIME.

STEEL CONTAINERS

Each robust steel unit is vandal proof, fully lockable and watertight to withstand the toughest of sites and the wildest of weathers.

We stock one of the most extensive ranges on the market with sizes and options to cover all requirements. Our containerised storage solutions are typically used to house site equipment, store small plant and tools, provide a versatile temporary extra storage facility at busy times and can even be utilised as a shipping container.

KEY FEATURES:

- Steel constructed shipping containers and stores
- Anti-vandal and fully lockable
- Watertight

Dims (l x w)	Weight	Product code
10 x 8ft / 3 x 2.4m	800kg	201000
20 x 8ft / 6 x 2.4m	2000kg	202000
Minimum hire	4 weeks	

ADDITIONAL EXTRAS:

- Racking
- Electrical sockets
- Lighting
- Padlocks

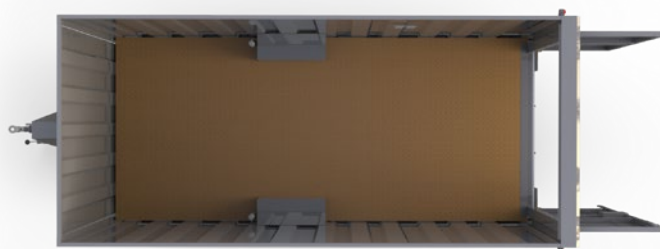

MOBI STORE

Brand new mobile storage unit, perfect for larger sites or sites on the move. Storage for anything from tools and accessories, to materials and parts. Anti-vandal steel storage facility – fully towable from one place to the next!

KEY FEATURES:

- Mobile secure site storage unit
- Robust anti vandal steel shell
- Removable low-level lifting eyes
- Hidden hinges with 3-point locking system
- LED lighting system which includes: 12v LED detachable lighting board, 12v marker lights front and rear.
- Manual hydraulic pump
- Recycled non-slip flooring

Product code	203000
External dim. l x w x h	16 x 7.5 x 7.7ft / 4.9 x 2.3 x 2.37m
Overall towing height	2.68m
Height lowered	2.37m
Internal dim l x w x h	3.4 x 2.17 x 2m
Door aperture w x h	1.9 x 186m
Gross weight	1800kg
Unladen weight (without optional extras)	1250kg
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Racking
- Electrical sockets
- Lighting
- Padlocks

SHELTER

Complete with bench seating, this 10 x 8 shelter is open-sided and made of robust steel.

KEY FEATURES:

- Versatile shelter for multi-purpose use
- Heavy duty, non-slip flooring
- Low level lifting points
- Open-sided
- Robust steel construction

Product code	201001
Dims (l x w)	10 x 8ft / 3 x 2.4m
Weight	1600kg
Power type	Optional
Capacity	Max 15 persons
Minimum hire	4 weeks

ADDITIONAL EXTRAS:

- Solar power
- LED lighting

Fuel and Water Tanks

Every project has a fundamental requirement of robust storage. Large volume water storage and bunded fuel tanks ensure your project is set up and secure, from the start.

STATIC WATER TANKS

Our static water tanks are used for all site water requirements. All our water tanks are available in a wide range of sizes and built to ISO standards, using robust heavy duty polyethylene.

KEY FEATURES:

- Secure water storage facility
- Top water inlet (filler point)
- Steel skid frame, fork pockets, heavy duty lifting eyes
- Plastic or steel holding tank (size dependant)

Dims (l x w)	Capacity	Dry weight	Product code
4 x 3.5ft / 1.2 x 1.1m	1363L / 300gal	58kg	221310
8 x 4.5ft / 2.4 x 1.4m	2273L / 500gal	500kg	221500
8 x 8ft / 2.4 x 2.4m	10001L / 2200gal	1000kg	225200
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Pumps
- Water management

WATER BOWSERS

Available in a wide range of sizes and built to robust standards we have a large fleet of towable water units readily available for use. We can provide site towable specification tyres and any ancillaries required.

KEY FEATURES:

- Secure water storage facility
- Top water inlet (filler point)
- Steel skid frame
- Heavy duty lifting eyes
- Plastic or steel holding tank (size dependant)
- Agricultural steel wheels and all terrain tyres

Dims (l x w)	Capacity	Dry weight	Product code
12 x 6.5ft / 3.6 x 2m	2273L / 500gal	600kg	221510
18 x 8ft / 5.5 x 2.4m	4546L / 1000gal	1800kg	221010
20 x 8ft / 6.1 x 2.4m	9092L / 2000gal	2300kg	222010
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Pumps
- Dust suppression
- Water management

JETTER BOWSERS

Garic's high pressure jetter bowzers help you to keep your sites, trucks and equipment clean by providing a mobile towable power wash facility to quickly and effectively remove dirt and stubborn deposits.

KEY FEATURES:

- Secure water storage facility
- Top water inlet (filler point)
- Steel skid frame
- Heavy duty lifting eyes
- Plastic or steel holding tank (size dependant)
- Agricultural steel wheels and all terrain tyres

Product code	220513
Dims (l x w)	12.6 x 6.5 x 6.5ft / 3.8 x 1.9 x 1.9m
Weight	2600kg
Water tank cap.	2273L / 500gal
Power Type	2200psi
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Dust suppression
- Pumps
- Water management

STATIC FUEL TANKS

Garic's bunded fuel storage tanks are the safest way to store diesel and oil on site. Fabricated from heavy duty steel, they are suitable for long term usage.

KEY FEATURES:

- Secure fuel storage facility
- 110% steel bund
- Fuel sight level gauge
- 5m of fuel delivery hose
- Standard trigger nozzle
- Fork pockets

Dims (l x w)	Capacity	Dry weight	Product code
7 x 4ft / 2.1 x 1.2m	1363L / 300gal	600kg	210300
9 x 5ft / 2.7 x 1.5m	2273L / 500gal	900kg	210500
8 x 8ft / 2.4 x 2.4m	4546L / 1000gal	2100kg	211000
13 x 9ft / 4 x 2.7m	11365L / 2500gal	2100kg	212500
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Pumps
- Digital flowmeter
- Fuel management
- Auto shut off nozzle

FUEL BOWSERS

Garic's heavy duty fuel bowzers are fully steel constructed and robust, making them suitable for long term use. All fuel bowzers come with site specification tyres suitable for off road use.

KEY FEATURES:

- Secure fuel storage facility
- Steel bund (110% fully bunded)
- Fuel sight level gauge
- Standard trigger nozzle
- Steel frame chassis
- Steel agricultural wheels & all terrain tyres
- Heavy duty lifting eyes

Dims (l x w)	Capacity	Dry weight	Product code
10 x 6ft / 3 x 1.8m	1363L / 300gal	700kg	210320
12 x 6.5ft / 3.6 x 2m	2273L / 500gal	1000-1200kg	210510
22 x 7.5ft / 6.7 x 2.3m	4546L / 1000gal	3300kg	211010
26 x 8ft / 7.2 x 2.4m	9092L / 2000gal	4600kg	212010
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Fuel management
- Digital flowmeter
- Auto shut off nozzle

COMBI CUBE

The Garic Combi Cube is a smart add-on to any unpowered site accommodation that requires external waste tanks, water tanks and fuel tanks. It also includes a 240V water pump and up to a 20kVA generator.

All of this is housed in a 10x8 steel container making it the perfect addition to service and power your site. We are also able to service the Combi Cube for waste removal and fuel and water replenishment.

KEY FEATURES:

- 12V LED lighting & frost protection
- RCD (residual current device) protection
- On demand water pump
- 15mm outlet water connection
- 32mm waste inlet c/w gate valve isolation
- 110mm waste inlet c/w gate valve isolation

Product code	113001
Dims (l x w)	10 x 8ft / 3 x 2.4m
Water tank	1000L
Waste tank	1000L
Generator	20kVA
Power type	Solar
Layout	Waste, water, generator
Minimum hire	1 week

AMP OPTIONS AVAILABLE:

- Multiple 63Amp
- Multiple 32Amp

SOLAR IBC

Our robust solar-powered self-contained IBC is the perfect solution for even the remotest of sites. It does not need a generator to run – it is powered by dual batteries which are charged by a 325w solar panel and has a high-pressure water pump.

KEY FEATURES:

- Self-contained system
- No generator required
- Easy fill cap
- 4 hrs constant operation with one charge
- Fully assembled
- Robust construction

Product code	TBC
Dims (l x w)	1640 x 1085 x 1443
Dry weight	100kg
Solar panel:	325w
Fresh water capacity	1000L / 220gal
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Low pressure mains feed connection
- Automatic waste pump
- Waste tank

WASTE IBC

Our robust self-contained Waste IBC is the perfect solution for even the remotest of sites.

KEY FEATURES:

- Self-contained system
- Fully assembled
- Robust construction

Product code	TBC
Dimensions (w x h x l)	1,200 x 1,000 x 1,163mm
Capacity	1,000L
Brim-full capacity	1,050L
Total weight (approx.)	55.3kg
Filling opening and screw lid	150mm opening
Minimum hire	1 week

ADDITIONAL EXTRAS:

- Solar IBC

Tower Lights

Clearly lit projects are essential. Our lighting towers offer a practical and safe method of lighting your site, whether for day works during the winter months, security purposes at night or employee safety at all times.

HYBRID TOWER LIGHT

These tower lights have always been a leader in lowering carbon emissions, plus an added benefit of lowering running costs.

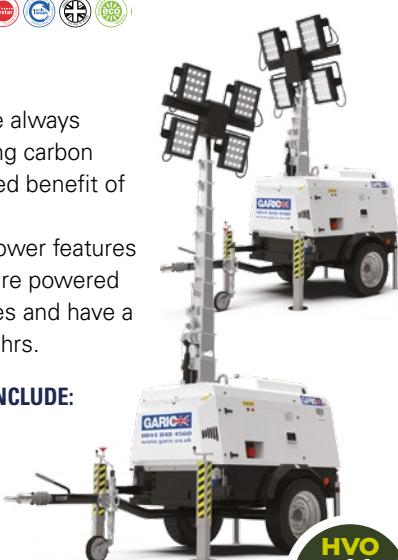

The VT-Hybrid lighting tower features LED floodlights which are powered by rechargeable batteries and have a running time of up to 8 hrs.

TYPICAL APPLICATIONS INCLUDE:

- Events
- Rail
- Urban areas
- Emergency Services

KEY FEATURES:

- Average mast max height of 9m
- 340° telescopic mast rotation
- The lighting tower recharges the battery for 5 hours
- Hydraulic lifting system
- When the battery is running the lighting tower runs without noise or carbon emissions
- Carbon emissions reduced by 86%
- Strong vertical galvanized steel mast in 7 sections
- Bunded tank to avoid fuel spillage on the ground
- Lifting eye and forklift pockets
- AMOSS kit - added safety when handbrake is released mast automatically comes down
- Darkness sensor - switches lamps on and off with daylight
- The VT-Hybrid has a timer and a light sensor - saving you money
- Road towable

Product code	
Lamps	4 x 150w LED
Min dims. (l x w x h)	10.6 x 4.5 x 7.8ft / 3.2 x 1.3 x 2.3m
Max dims. (l x w x h)	10.6 x 6.8 x 27.8ft / 3.2 x 2.0 x 8.4m
Weight	1230kg
Fuel cap.	160L / 35gal
Run time	640 hours
Mast rotation	340°
Wind stability	110km/h
Illuminated area	3300m ²
Approx. fuel savings	£390 per month

ECO TOWER LIGHT

The Eco Tower Lights are compact and easy to transport from site to site. they are most innovative Sustainable Lighting Towers available!

TYPICAL APPLICATIONS INCLUDE:

- Gas, oil & mining
- Special events
- Rural & hard to reach areas
- Emergency response
- Construction & work sites

KEY FEATURES:

- LED floodlights / Instant bright light / No lamp warm up period.
- AMOS Safety System automatically lowers mast in moved /Prevents mast hitting overhead power cables.
- Auto Start/Stop Light Sensor / Reduces fuel and activity costs.
- Over 220 hours runtime / Extends refuelling period / Reduces onsite labour costs.
- 12 units fit on to a 40ft wagon for reduced delivery costs.

Environmental Solutions

Ensuring projects are protected from mud, oil and other contaminants is always an environmental safety priority. From Interceptor Drip Trays to Settlement Tanks, COSHH stores and Boot Washes, Garic offers the most widely trusted range of environmental site solutions in the UK. Garic's comprehensive environmental solutions cover oil containment to dirt settlement, washing solutions and harsh substances control.

INTERCEPTOR DRIP TRAYS

The interceptor drip tray uses a protection system safeguards any unbanded equipment from potential oil and fuel leaks. Offering instant environmental protection, the tray is a simple yet effective way of ensuring no contaminants are spilt on site.

KEY FEATURES:

- Steel fabricated oil interceptor
- Removable steel platforms
- Integral oil interceptor
- Sight level gauge
- Water overflow system
- World patented system

Dims (l x w)	Capacity	Weight	Product code
6 x 4ft / 1.8 x 1.2m	409L / 90gal	175kg	240610
8 x 5ft / 2.4 x 1.5m	691L / 152gal	300kg	240810

12 x 6ft / 3.6 x 1.8m	1241L / 273gal	600kg	241210
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Waste oil removal

BOOT WASH

The boot wash from Garic is a heavy duty facility suitable for cleaning boots on site. Equipped with a combined hose brush, the unit is a unique yet extremely effective solution to the problem of muddy boots in clean areas.

KEY FEATURES:

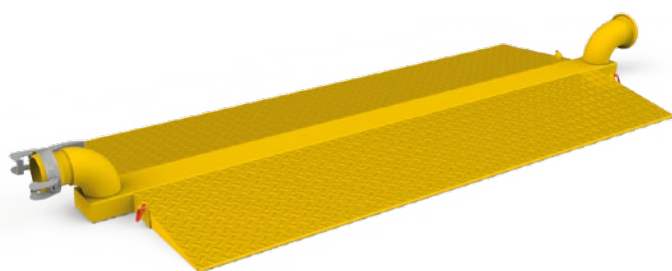

- Easy install, standalone boot cleaning unit
- Available with three or five bays
- Anti-slip steel foot platform
- Reinforced rubber water hose and sprinkle nozzles

	Dims (l x w)	Tray depth	Weight	Product code
Three bay	5.5 x 1.6ft / 1.6 x 0.6m	250mm	200kg	310300
Five bay	9 x 1.6ft / 2.7 x 0.5m	250mm	300kg	310500
Min. hire	1 week			

ADDITIONAL EXTRAS:

- Water tank / bowser
- Pump

PIPE RAMPS

The pipe ramp is a simple yet ingenious design which enables you to pump water from one side of the highway or walkway to the other without disrupting the flow of traffic.

Its sturdy steel construction and gentle up and over ramped is designed so pedestrians and vehicles can easily traverse over it safely whilst the water flows through it without interference. Modular in design it can easily be linked together to cover larger paths or roads.

KEY FEATURES:

- Manufactured in UK
- Durable - withstand heaviest of duties from any site
- Adaptable
- 6 inch baugher female fitting

Length	Weight	Product code
8ft / 2.4m	220kg	340801
10ft / 3.0m	250kg	341001
Minimum hire	1 week	

ADDITIONAL EXTRAS:

- Pipes

WASTE TANKS

Garic can supply waste tanks in two sizes, manufactured to the highest quality to prevent leakage and avoid environmental hazards.

The waste tank will securely store all the waste as well as provide you with a range of additional benefits. These include an audible alarm feature to signal high capacity, a high level vent pipe to eradicate odours and an innovative internal wash system to ensure safe cleaning procedures.

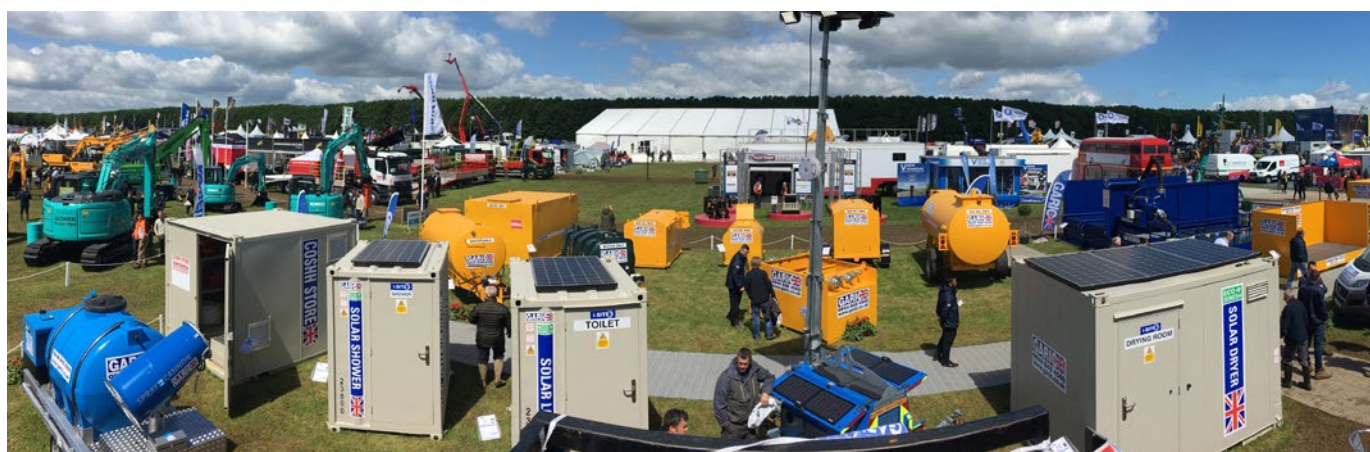

KEY FEATURES:

- Securely stores all waste
- Audible alarm feature to signal high capacity
- High level vent pipe to eradicate odours
- Innovative internal wash system to ensure safe cleaning procedures

Dims (l x w)	Capacity	Weight	Product code
6.5 x 11.8ft / 2 x 3.6m	4546L / 1000gal	700kg	231001
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Overfill alarm
- Ventilation pipe
- Waste management

SETTLEMENT TANKS

Our settlement tanks are specially designed to prevent silt and fine particles being discharged into the water system or drains, maintaining full pumping capacity and avoiding blocked drains.

KEY FEATURES:

- Steel construction and steel weir wall
- Heavy duty lifting eyes and lashing points
- Viewing eyes

Dims (l x w)	Capacity	Weight	Product code
8.2 x 3.2ft / 2.5 x 1.5m	4546L / 1000gal	550kg	251000
Minimum hire	1 week		

WASH BAY/BREAKER

An evolution of the Interceptor drip tray, the wash tray provides the perfect solution to the problem of oil/grease and fuel from entering your drains at the wash bay. Equipment can be placed by lifting or via optional entry ramp.

KEY FEATURES:

- Interceptor drip tray
- Removable steel platforms (Ambideck)
- Integral oil interceptor
- Lifting / lashing points (x4)
- Site level gauge (oil level indicator) & protector
- Rainwater overflow system
- Integrated sides (3 x side any configuration)

Dims (l x w)	Capacity	Product code
12 x 6ft / 3.6 x 1.8m	1073L / 236gal	240001
Minimum hire	1 week	

ADDITIONAL EXTRAS:

- Removable sides
- Electric winches
- External ramps
- Transfer sub pump

COSHH STORE

The COSHH Store has been specifically designed to safely store and control hazardous substances such as oils, paints and other site use chemicals.

Our COSHH store is strong, secure and are built as standard with integral drip tray in the floor and extra large louvered vents, giving you peace of mind that all your COSHH requirements are being met.

KEY FEATURES:

- Steel construction and fully vented
- Steel access door (double) and integral internal steps
- Internal drip tray and fork lift pockets
- No-slip removable Ambideck steel floor
- Fully lockable and weather proof
- Low level lifting / lashing points

Dims (l x w)	Capacity	Weight	Product code
10 x 8ft / 3 x 2.4m	Bund 1650L / 363gal	2000kg	191001
Minimum hire	1 week		

ADDITIONAL EXTRAS:

- Racking

Please talk to one of our expert sales teams for spill control products for COSHH Stores on **0330 094 8065**

INTERCEPTOR DRUM STORE

Store a range of drums in a secure environment safe in the knowledge that any leaks will be contained by the built in drip tray.

KEY FEATURES:

- Steel drip tray and forklift pockets
- Removable steel platforms (ambideck)
- Integral oil interceptor
- Lifting / lashing points (x4)
- Site level gauge (oil level indicator) & protector
- Rain water overflow system
- Steel mesh protective cage
- Spring loaded lockable catches
- Security padlock fastening point & high level shelf

Dims (l x w)	Oil holding cap	Weight	Product code
6 x 4ft / 1.8 x 1.2m	682L / 150gal	500kg	270620
8 x 5ft / 2.4 x 1.5m	1132L / 249gal	600kg	270820
Minimum hire	1 week		

DUST SUPPRESSION BOWSER

Garic's dust suppression bowsters are ideal for sites with high levels of dust and are a must for anyone in the demolition and quarrying industries.

With dust levels presenting such a huge health and safety issue, it is crucial that you can source the right dirt and dust suppression system for the job at hand.

KEY FEATURES:

- High and low level reach options
- Fan tail irrigation head as standard
- Static or mobile options available
- Additional fan tail, irrigation spraying
- Additional sprinkler system

DIMS (L X W)	CAPACITY	PRODUCT CODE
12 x 6.5ft / 3.8 x 2m	2273L / 500gal	320500
18 x 7.5ft / 5.5 x 2.3m	4546L / 1000gal	321000
20 x 7.5ft / 6.4 x 2.3m	9092L / 2000gal	322000
Minimum hire	1 week	

ADDITIONAL EXTRAS:

- Suction pipe for self filling
- Road tow spec
- Water fills

RECIRCULATING FUEL PURIFICATION SYSTEM

**SALE ONLY
PRODUCT**

A system that maintains healthy and clean fuel

Garic offers a patented solution for fuel recovery and storage that eliminates contamination, ultimately dispensing fuel at better than forecourt standards.

The tank is used for fuel extraction, storage, maintaining quality and hygiene by preventing the formation of water or sludging. This system is designed to remove suspended water, asphaltenes and contaminants from gas oil. This enables users to safely store and reuse the gas oil, avoiding the cost, hassle, and environmental

KEY FEATURES:

- General plant and equipment can be emptied of dirty fuel to be cleaned and recovered
- Cost savings by cleaning fuel which would normally be disposed
- Ensures clean fuel is always distributed
- Less breakdowns on site

APPLICATIONS INCLUDE, BUT ARE NOT RESTRICTED TO:

- Shipping
- Generator / plant hire
- Transport
- Haulage

Product code	TBC
Fully bunded 40,000L	Audible and visual capacity alarm to prevent overfilling
Cleans up to 120L of contaminated diesel per min	Can be supplied fully ATEX compliant
Recovers fuel from machinery	Tank level gauge system
Negates the need for disposing of 1000's of ltrs of contaminated diesel fuel	Removes water, asphaltenes, sludge, algae and other particulate matter
2 x auto shut-off trigger filling nozzles	Two high-flow delivery pumps

Wheel Washing

Keeping roads clear of dirt and debris is essential for the safety of road users and the environmental control of mud and other substances. Powerful and heavy-duty wheel wash solutions from Garic guarantee an efficient, sanitary and recyclable wash to keep your roads clear and your wheels clean.

CITY WHEEL WASH

This unit is especially designed for site specification vehicles such as tipper trucks and vehicles without front and rear under-run restrictions, however, ramp extensions are available for these lower configurations. Garic's City Wheel Wash is designed to enable quick deployment without the need for movement orders and to be set up on-site with as little disruption as possible. This unit is the smallest powered spray wash product in our range. Its submersible pump can either be plugged in to an existing three-phase power supply or powered independently of mains power using a diesel-powered generator. Please note that a 25mm water supply is required to give the unit its initial fill and keep topped up. Waste water is minimised as it is automatically recirculated from the containing sump beneath.

The unit can be dug into the ground down to only 325mm for a flush-fit application and, if digging is not an option, the unit can also be used 325mm above ground using a set of 3-metre rumble ramps. As wheels pass through the unit, the rumble bars agitate the tyre treads and which are then cleaned using high-pressure spray jets. This process ensures a 360° clean of standard tipper lorry tyres. Its outstanding design means that travelling very slowly through the unit achieves a clean similar to our much larger units.

KEY FEATURES:

- Low access height
- Compact / small footprint
- Modular

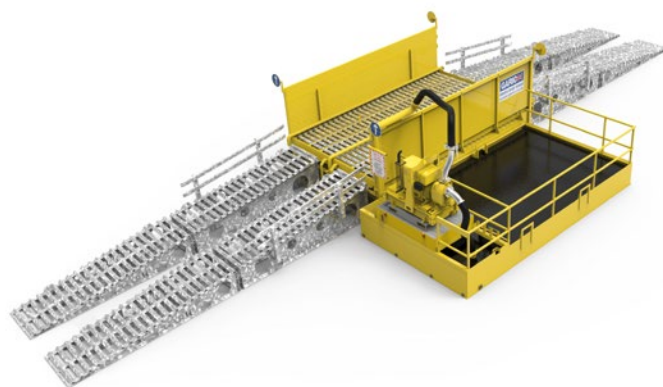

Product code		300003

1	8500mm x 4500mm x 325mm	2500mm x 4500mm x 325mm
2	11000mm x 4500 mm x 325mm	5000mm x 4500 mm x 325mm
3	13500 mm x 4500 mm x 325mm	7500 mm x 4500 mm x 325mm
Minimum hire		4 weeks

VEHICLE COMPATIBILITY

Standard set up WITH ramps:		Without ramps:
Standard Car/van	No	No
4x4 Pickup	Yes (Min height 370mm)	Yes (Min height 370mm)
6/ 8 Wheeled tipper truck	Yes	Yes
Articulated truck	No	Yes

ADDITIONAL EXTRAS:

- Generator
- Additional wash area
- Water bowser

ELEVATED ENVIRO WHEEL WASH

The Elevated Enviro Wheel Wash requires a flat, level surfaced area. It comes complete with ramps so you'll need to ensure there is enough space for a vehicle to enter and exit the wash when it's in situ. It's perfect for a quick set-up and removal on short-term contracts or sites that require heavy duty wheel washing. As vehicles pass through the wheel wash, powerful jets spray water onto the wheels, chassis and undersides, cleaning the vehicles in one fluid motion. The Elevated Enviro wash recycles and re-circulates water separating the muck and debris in the lagoon area for easy removal and cleaning.

Please note that a 25mm water supply is required to give the unit its initial fill and keep topped up.

KEY FEATURES:

- Powered heavy duty wheel wash
- Steel fabricated wash area
- Surface mounted no excavation required
- Heavy duty lifting and lashing points
- Cleaning area with vertical spray jets
- Magic eye system
- Interceptor drip tray as standard
- 30ft external galvanised steel ramps

Product code	300001
Dims (l x w)	Weight
21 x 7m / 70 x 24ft with ramps	11300kg
6 x 7m / 20 x 24ft without ramps	9300kg
Minimum hire	4 weeks

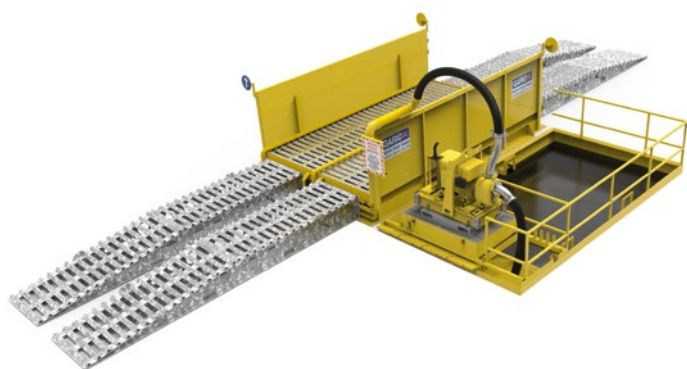

VEHICLE COMPATIBILITY

Standard set up WITH ramps:

Standard car/van	No
4x4 pickup	No
6/8 wheeled tipper truck	Yes
Articulated truck	No

ADDITIONAL EXTRAS:

- Electric pumps
- Header tank / bowser
- Water fills

ENVIRO WHEEL WASH

Our fully automated and totally self-sufficient enviro wheel wash is perfect for sites where sticky clay and mud can be a big problem. As vehicles pass through the wheel wash, powerful jets spray water onto the wheels, chassis and undersides, cleaning the vehicles in one fluid motion. The Enviro Wash recycles and re-circulates water separating the muck and debris in the lagoon area for easy removal and cleaning.

This wash can come with or without ramps depending on how much of the wash you want to dig in to the ground. In all instances the lagoon needs to be dug in but you can also choose to dig the full wash in too so it sits flush with the ground – removing the need to have the ramps.

Please note that a 25mm water supply is required to give the unit its initial fill and keep topped up.

KEY FEATURES:

- Powered heavy duty wheel wash
- Steel fabricated wash area
- Heavy duty lifting and lashing points
- Cleaning area with vertical spray jets
- Automatic sensors

Product code	300002
Dims (l x w)	Weight
22 x 24ft / 6.7 x 7.3m (without ramps)	12,200kg
66 x 24ft / 20.1 x 7.3m (with ramps)	14,200kg
Minimum hire	4 weeks

VEHICLE COMPATIBILITY

Standard set up WITH ramps:	Without ramps:
Standard car/van	No
4x4 pickup	No
6/8 wheeled tipper truck	Yes
Articulated truck	No

ADDITIONAL EXTRAS:

- Electric pumps
- Water tank / bowser
- Water fills
- Header tank / bowser

DRIVE THROUGH BATH

Garic's unpowered drive through bath is an inexpensive yet very efficient vehicle wash system. It is ideal for sites that have moderate mud and dirt and for use on flat, solid surfaces. It's quick and easy to install too so you can start using it straight away.

Trucks, dumpers and lorries are cleaned as they drive over a series of rumble strips which shake off the heaviest earth. They are then washed as the wheels, chassis and undersides pass through a water lagoon to provide a quick, safe and effective cleaning system. If required, extra road rumble strips are available.

Please note that a 25mm water supply is required to give the unit its initial fill and keep topped up.

KEY FEATURES:

- Steel fabricated wash area
- Removable rumble road sections
- Heavy duty lifting and lashing points

Product code	303500
Dims (l x w)	Weight
35 x 12ft / 10.7 x 3.6m (without ramps)	6300kg
77 x 12ft / 23.5 x 3.6m (with external ramps)	15900kg
Minimum hire	4 weeks

VEHICLE COMPATIBILITY

Standard set up WITH ramps:	Without ramps:
Standard car/van	No
4x4 pickup	No
6/8 wheeled tipper truck	Yes
Articulated truck	No

ADDITIONAL EXTRAS:

- Ramps
- Water tank / bowser
- Water Fills
- Header tank / bowser

Power Solutions

Environmentally-friendly energy sources such as our outstanding Solar Energy Store, features solar panels for off-grid power backed up by a deisel engine.

This innovative setup reduces fuel usage and carbon emissions without compromising on reliability.

SOLAR ENERGY STORE

Developed to provide a fully automated 24/7 off grid power supply integrating renewable power and storage with a diesel/HVO powered backup generator to reduce fuel consumption and carbon emissions.

During daytime operation the energy created by the photovoltaic solar panels is harvested and stored in a large AGM/absorbed glass mat battery pack. The standby generator is configured to run only when the batteries are depleted or when there is a high AC /actual current load. This solar energy store is ideally set up to power 3 open plan cabins, toilet blocks, or similar.

Telemetry: All key values are monitored by Garic (fuel level, power input and output), and all historical performance information can be shared with the hirer.

KEY FEATURES:

- Anti vandal steel construction
- Low level lifting eyes
- Fork pockets
- Multipoint door lock system
- AC output load connection 1x 63amp 230v AC external socket (RCD protected)
- Remote monitoring, logging, software updates and control via GSM system (signal coverage provided)
- GPS position monitoring (requires GSM system to report)

ENVIRONMENTAL BENEFITS:

- Reduced energy costs
- Reduced environmental impact and carbon footprint.
- Enhance corporate image and reputation for

Product code

Dims (l x w)	21 x 8.0 x 8.49ft / 6.06 x 2.44 x 2.59m
Flooring	Plyboard & Vinyl
Weight	3700Kg
Power type	Solar Hybrid
Generator	18kva
Generator diesel capacity	500LTR/109G

ADDITIONAL EXTRAS:

- Distribution Board
- Cables

NEW
for 2023

SOLAR POWER FRAME

Garic's cabin or floor mounted SPF are a simple and effective way to provide solar power to welfare cabins and accommodation units, this safe and secure steel frame that houses photovoltaic solar panels fits on any 24ft x 9ft cabin with ISO corners.

With one Solar power frame able to provide up to 3.2 kW of power the energy generated will be used to power heating, lighting and plug sockets within the unit.

At times when there is low demand or high solar input, any left-over power is diverted to a connected solar energy store or battery storage unit.

This sustainable power solution will allow customers to minimise generator run time reducing fuel costs and carbon emissions.

Our SPF can be utilised on larger site setups by using multiple frames to meet growing power demands as sites develop.

KEY FEATURES:

- Increase competitive advantage.
- Roof mounted or free standing.
- Multiple frames for large site setup.
- Steel construction.
- Fork pockets.
- Lifting eyes.
- Stackable for transport and storage.
- ISO fixings.
-

ENVIRONMENTAL BENEFITS:

- Reduced energy costs
- Reduced environmental impact and carbon footprint.
- Enhance corporate image and reputation for environmental stewardship.

Product code	
Dims (l x w)	24ft x 9ft / 7.3m x 2.7m
Weight	TBC
Plug Connection	32amp
Unit Power Output	3.2KW

ADDITIONAL EXTRAS:

- Battery storage unit
- Solar Energy Store
- Distribution board

ENERGY STORE

With the introduction of battery power Garic now offers an alternative solution to power on site. With many applications, battery power now provides a solution for both air and noise pollution; with the added benefit of saving on fuel costs.

The Energy Store provides emission-free, silent power. The energy storage system works with Solar power frames solar energy store or diesel generators to reduce carbon emissions and fuel usage by up to 80%. When used with renewable energy sources, it provides endless hours of zero-emission power.

KEY FEATURES:

- Low charge time
- ECM 7" Touch Screen Control Module
- Forklift Pockets, Lift & Drag Skid, Lifting Ring
- Telematics
- Water/Ingress Protection

ENVIRONMENTAL BENEFITS:

- Reduced energy costs
- Reduced environmental impact and carbon footprint.
- Enhance corporate image and reputation for environmental stewardship

Product code	
Dims (l x w)	1450 x 1238 x 1788.2
Weight	1250
Type	LFP (Lithium Iron Phosphate)
Volts	400
KVA	45
KWH	90

ADDITIONAL EXTRAS:

- Distribution Board
- Cables

POWER GENERATION

Garic are leaders in environmental product offerings. With the introduction of hybrid power, Garic now offer an alternative solution to power on site. With many applications, hybrid power now provides a solution for both air and noise pollution; with the added benefit of saving on fuel costs.

All Garic generators are designed with practicality and usability in mind. By offering an optional telematics system, Garic can monitor the stability of the generator; ensuring that any breakdowns or fuel fills are actioned upon, efficiently.

We can provide power generation for any site requirement, 20KVA up to 100KVA generator sets can come enclosed within an anti-vandal container. Offering the practicality of a generator, fuel tank and distribution board being integrated in a store. Higher kVA options are available on demand.

COMBI CUBE

The Garic Combi Cube is a smart add-on to any unpowered site accommodation that requires external waste tanks, water tanks and fuel tanks. It also includes a 240V water pump and up to a 20kVA generator.

All of this is housed in a 10x8 steel container making it the perfect addition to service and power your site. We are also able to service the Combi Cube for waste removal and fuel and water replenishment.

KEY FEATURES:

- 12V LED lighting & frost protection
- RCD (residual current device) protection
- On demand water pump
- 15mm outlet water connection
- 32mm waste inlet c/w gate valve isolation
- 110mm waste inlet c/w gate valve isolation

Product code	113001
Dims (l x w)	10 x 8ft / 3 x 2.4m
Water tank	1000L
Waste tank	1000L
Generator	20kVA
Power type	Solar
Layout	Waste, water, generator
Minimum hire	1 week

Units on grid are supplied with energy

Introducing the **Microgrid**

A scalable solution that caters for welfare power needs, from a small site through to a range of medium and larger site solutions.

The Microgrid uses renewable power, harnessed from solar energy frames that lock on to any existing 24 x 9 accommodation units.

The solar energy from the frames is then stored in a battery energy storage solution, which can be supplemented with generated power if required.

The system includes the Solar Power Frame, the Solar Energy Battery and / or the Solar Energy Store and can scale up modularly to suit different sizes, shapes and energy requirements of sites.

**Saving
fuel and
reducing
costs**

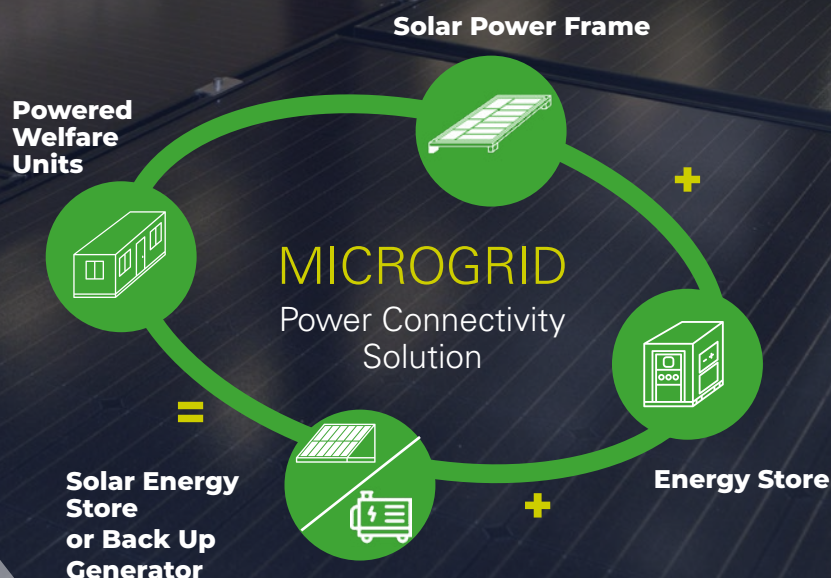

**Providing
the Lowest
Carbon
Footprint**

A **Garic solution** to your energy needs

We know your needs are ever-changing, which is why we've built a scalable power solution to reduce your energy output.

A fully circular solution that captures as much solar energy as possible.

The solar panels we use only need daylight to start capturing energy, ensuring you can get the maximum amount of power from them.

Optional Extras

Our comprehensive range of additional extras can enhance our product range with a complete and cost-effective solution. Our expert team will listen and advise on the best solutions to meet any requirement. Examples are shown below, for the full range please call 0330 094 8064

Item Description
Fridge
Cooler box 240v
Cooler box 12v
Water dispenser
Water bottles (sale only)
Kettle
Microwave 240v
Toaster 2 slice
Toaster 4 slice
Leather swivel chair
Plastic stackable chair
Padded stackable chair
Meeting room table
Office desk
Bench
Bench with hooks
Coat hooks (dryer)
Digital flow meter
White boards 4ft

Item Description
White boards 6ft
Pin boards
Notice boards
Enclosed lockers
Mesh lockers
Linking (butt links)
244cm racking section (twin shelf)
Inverter pack
Waste, water, fuel servicing
Toilet waste cassette
Smoke alarm
Carbon monoxide detector
Standard padlock
Heavy duty padlock
Filing cabinet
Television
Fly leads
Bookcase (2 shelf)
Bookcase (5 shelf)

Power Generation

- 10 - 2100kVa standalone generators
- Super silent vault safe
- Hybrid generators
- Containerised generators
- Linked sets
- Solar Energy Store - see page 30
- Combi Cube - see page 62

Decontamination

Garic provide a range of towable decontamination units which are perfect for confined locations and are quick and easy to set up. Each unit consists of a dirty end, a shower area and a clean end, for optimized usability. The units provide important comfort and hygiene facilities for any site.

Dust Control

Being robust and powerful, dust control equipment from Garic is extremely efficient at tackling dust and minimising the associated environmental and health and safety risks.

Mobile Decontamination

- Single person gas powered units
- Mini 3m twin shower units
- Large 4.2m twin axle welfare units (showers, toilet & welfare area)
- Large 4.2m quad shower units

Training

- IPAF and PASMA
- NEBOSH
- CITB site safety plus
- E-learning courses available

Groundwork

- Dumpers: ¾ - 10T
- Mini and midi excavators: 0.8 - 8.5T
- Tracked and wheeled excavators: 1.5 - 45T, 360°
- Rollers 800 and 1200mm
- Available operated or self-drive

Material Handling

- Diesel, LPG forklifts
- Telehandlers: 4 - 21m and RT telehandlers
- Industrial mast lifts and eco electric forklifts
- Kerb Lifters

Fencing and Hoarding

- Standard H-top and round-top sets
- Crowd barriers, pedestrian barrier and gates
- Acoustic barriers
- Blockade barriers / gates

HVAC

- Air conditioning units
- Evaporative coolers
- Infra-red and LPG ducted heaters

Portable Toilets

- Mains connected portable toilets
- Hot wash portable toilets
- Portable urinal
- Disabled portable toilets
- Site portable toilets
- Portable toilet servicing

WiFi

- Hubba X4G router

Jetter Washers & Water Bowsers

- Water bowser
- Water tanks
- Pressure washer
- Pillow tank

Loaders

- Backhoe and skidsteer loader
- Tracked loader and swing loader
- Various sizes and bucket types available

Waste Management

- 4yd - 40yd roll on roll off skips
- Specialist waste storage - glass, COSHH + asbestos skips
- Open top or enclosed skips
- 4, 6 and 8 Wheeler muck shifting lorry 18 - 32T

Water Dispensers

- Mains connected water coolers
- Bulk water bottles

Lighting Towers

- Static and mobile lighting towers
- Security lighting towers (CCTV Cameras)
- LED light bulbs (emit greater levels of light)
- 360° light head rotation
- Hybrid and solar powered power units

Powered Access

- Vehicle mounted: 12 - 102m
- Scissor lifts: 7.2 - 33.7m - electric / bi-fuel & diesel
- Telescopic / articulated boom lifts from 10 - 47.7m - electric bi-fuel and diesel. Narrow aisle / hi-flotation and rough terrain specs available

Security and Access Control

- Monitored CCTV systems
- Infra-red systems and motion sensors
- Face recognition access point entry systems
- Biometric finger scanning access point

Road Plates

- Plain road plate – trench cover
- Anti skid road plate
- Vis track heavy duty access mats
- Safe plate – Hi vis road plate

Mobile Storage Containers

- 16' Towable store

Fire Rated Units

- Certified to achieve a 30-minute "in to out" fire rating
- Roof and wall cavities insulated with non-combustible glass-wool fibre
- Vinyl wall covering laminated to 12.5mm plasterboard lining, offering Class 0 spread of flame
- Treated ceilings offering Class 0 spread of flame
- Extra duty seam welded anti-static flooring, manufactured to Class 1 spread of flame.
- Zinc rich fibre applied to all external mid steel surfaced and weld areas
- Fully galvanised external wall panels
- Coating of semi-gloss fast reflective fast enamel spray applied to roof for extra protection
