garic.co.uk

The Halo Tower light is only available with the Armadiallo XL+2 and is a robust and reliable extending mast system.

The versatile retractable roof mounted mast system offers an easily deployable flood lighting solution.

Mast Key Features:

- Extending pneumatic telescopic mast up to 3.22m
- Quick deployment time
- Roof mounted resulting in minimal vehicle damage
- Constructed from stainless steel for durability
- Integrated 1000 lumens uplighter to identify hazards when raising mast
- Operates from units own battery system
- Automatic park facility with single and double tap parking
- On-board air regulator and compressor options
- Automatic obstruction sensor with auto stop and lock features
- 350° rotation of mast head, pan and tilt in all directions
- Extremely efficient, high performance LED lights offer high lumen output
- LED lighting benefits from solid state electronics, combined with rugged die cast housing

Lighting configuration key features:

- Instant on/off
- High light efficiency, producing high lumen output
- Lumen Output - Single: 10,130 / Dual: 20,261
- Long life LED operation with low current consumption and operating temperature
- Individual lamp adjustment
- Surface mount solid-state electronics
- Powder coated die-cast housing
- No ultraviolet rays attracting insects during night-time operation
- IP67 rated for dust and water resistance

Standard Specifications:

Extending Mast

3.22m

Dims

1555mm x 696mm

Weight

62kg

Mast rotation

350°
