

Garic's unpowered Enviro Bath 12 is an inexpensive yet very efficient vehicle wash system. It is ideal for sites that have moderate mud and dirt and is quick and easy to install, doesn't require an operative and is very easy to maintain.

Trucks and lorries are cleaned as they drive over a series of rumble strips which shake off the heaviest earth. They are then washed as the wheels, chassis and undersides pass through a water lagoon to provide a quick, safe and effective cleaning system. If required, extra road rumble strips are available.

Like our Enviro Wheel Wash 24, the Enviro Bath 12 can be elevated and placed directly onto a surfaced area with ramps or excavated into the ground making it suitable for a whole host of site needs.

Key Features:

- Steel fabricated wash area
- Removable rumble road sections
- Heavy duty lifting and lashing points

 Minimum hire **1 week**

Standard Specifications:

Product code

303500

Dimensions with ramps
LxWxH

77 x 12ft / 23.4 x 3.6m

Dimensions without ramps
LxWxH

35 x 12ft / 10.6 x 3.6m

Weight (bath only)
