Welfare Solutions

Providing comfort, safety,
security and wellbeing for
your team

Sustainable Site Solutions

 **Garic**

Welfare Solutions

Garic helps you support and protect your teams with market-leading welfare units and services that reduce risk and make it easier to manage compliance.

We'll help you to look after the wellbeing of your teams. Going beyond the box to deliver a whole range of welfare solutions to support every member of your team.

Because when your people feel safe and valued, you'll deliver on your promises.

22yrs

since we invented the Solar Loo

welfare assets available

Sustainable site solutions

Our sustainable solutions are designed to provide the most environmentally friendly and cost-effective combination of expertise, products, services and technology through the life of your project. As your requirements change, our sustainable site solutions flex so that our solution always provides what you need, when you need it.

This brochure focuses on our **Welfare** solutions. We also offer **Energy** and **Environmental** Solutions.

We provide temporary on-site welfare with one aim – to make sure that your teams can do their best for you every day. A uniquely flexible combination of environmentally friendly welfare products that can accommodate the needs of the smallest to the largest site.

Compliance

The CDM Regulations 2015 set out minimum welfare facilities for construction sites and we make it easy for you to achieve compliance through every stage of your project. We can also advise on HSE guidelines and help you to deliver best practice on site.

It's important that your teams feel safe and valued while they're working on site, and that's why our units are among the best-performing and most comfortable in the industry. We can even monitor the environment within our solutions to ensure optimum performance.

We're working with partners to provide stand-alone and integrated CCTV solutions into our welfare offering to help you keep your people and property safe.

Our range of male and female sanitary products and services help to ensure your people feel at home on site, as well as supporting your workforce diversity.

Unless stated otherwise, the min hire period is **1 Week**

Please note: To ensure our rebrand is undertaken in the most sustainable way, our products will be supplied in either blue, as shown, or in our previous colours.

Mobile Solutions

Mobile welfare solutions that cater for up to 10 people in a single unit are available in a variety of configurations, meaning that we can accommodate your needs in the hardest-to-reach locations.

Static Solutions

A flexible and extensive range of static solutions, available in almost limitless configurations, can accommodate anywhere from 10 to more than 90 people within any footprint to suit your site's location and conditions.

Site solutions that go beyond welfare to provide comfort, safety and security.

Site Servicing

One Less Thing to Worry About

We support our welfare solutions with a full in-house servicing team dedicated to removing waste, and replenishing water, fuel, and consumables.

With one vehicle and one visit, our servicing team solves all your waste, water, and fuel requirements. With a bespoke weekly, fortnightly or monthly visit from our servicing vehicle, we'll remove your site waste, refill water tanks and replace any welfare consumables.

We'll even provide our renowned 5-star service to sites where you use welfare units and cabins supplied by other providers, or provide a single replenishment or removal visit at a time that suits you. Tailored support, when you need it most.

That's one less thing to worry about.

That's thinking beyond the box.

Waste removed

Waste tank and septic tank empties can be done through our servicing fleet.

Water replenished

Clean water for toilets and water tanks can be filled periodically.

Fuel refilled

We'll fill any fuel tank for self-contained cabins or bunded fuel tanks.

Consumables restocked

Our 5-star welfare servicing includes replenishment of toilet roll and hand sanitiser on every waste empty and clean water fill.

FORS Gold 7 years in a row

We're committed to operating at the highest levels of the transport industry.

National Sanitation Qualification

Our team is qualified in the PSE NSQ certification, demonstrating excellence and environmental responsibility in sanitation.

Certifications

Garic is fully certified with all the industry's leading bodies, proving that our operations are always undertaken with health, safety and environmental responsibility in mind.

NEW for
2025

Introducing the Garic App: A Smarter Way to Manage Your Assets

We're excited to introduce the Garic app! Designed to give you real-time access to your asset telemetry data, it's a game-changer in performance monitoring, efficiency, and proactive maintenance.

Enhanced Performance Monitoring

Track a variety of performance metrics, including data on energy consumption, operational efficiency, and maintenance needs.

Encouraging healthy competition

By comparing the performance of assets across different locations, your site managers can benchmark their efforts and strive for continuous improvement. This competitive spirit not only drives better performance but also encourages a culture of excellence and accountability.

Fault detection and prevention

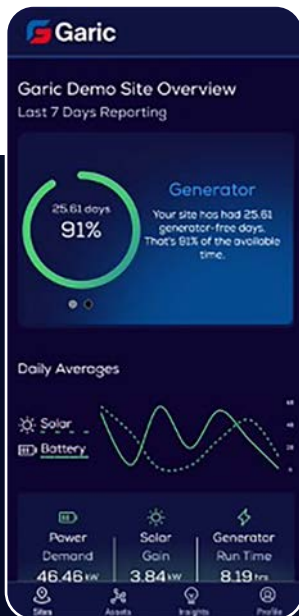

The app continuously monitors the telemetry data, alerting you to any anomalies that may indicate a malfunction or inefficiency. This proactive approach helps prevent costly downtime and repairs, ensuring your assets are always performing at their best.

Reporting

Easily download performance reports for your app-enabled products on all your sites.

A New Standard in Asset Management

The Garic app isn't just another tool - it's a smarter way to manage your assets with ease, transparency, and control. We're thrilled to bring you this innovation and can't wait for you to experience its benefits firsthand!

To find out more about the Garic App, and get set up, please contact our expert team at:

Mobile Welfare

Mobile, versatile, secure

Our wide range of towable mobile welfare units can be positioned where you need them and secured within minutes for full flexibility and efficiency. You choose the right configuration, we help keep you fully compliant.

Armadillo 12

Capacity 6 people

- Road towable and can be converted into a static unit in minutes.
- Canteen with kitchen and seating for up to six.
- Private WC with an external door in every unit.
- Diesel generator powers this unit.
- A drying room is incorporated with the generator room.
- Secure steel construction to help reduce vandalism and disturbances.

The Armadillo 12 is a robust and secure mobile welfare unit suitable for even the most remote and demanding of environments.

This six-person mobile welfare unit is completely self-contained and can be easily moved and set up to provide shelter and facilities within minutes. Even better, the Armadillo can be adapted or modified to meet your exact requirements and protect your people on any site.

The Armadillo 12 will keep the warmth in and the weather out on even the harshest, roughest, most remote work sites.

Product code	020601 or 020602
Dimensions LxWxH	12 x 7.5ft / 3.6 x 2.3m
Layout	6 person Canteen / 1 Toilet
Power type	Generator

Visit our site for more technical information, product features and a full spec sheet.

Armadillo 12 Eco

Capacity 6 people

- Canteen with a kettle, microwave, hot and cold water, and seating for up to six.
- Solar panels charge the built-in battery that powers the unit.
- Road towable and can convert to a static unit in minutes.
- Private WC with an external door.
- Secure steel construction to help reduce vandalism and disturbances.

The Armadillo 12 Eco provides everything the Armadillo 12 offers, but with sustainable solar power as its main energy source.

The self-contained mobile unit can become static in a matter of minutes thanks to the in-built hydraulic system. It includes a private WC, drying room, and a canteen for 6 people, all housed in a secure steel unit. Solar panels provide the primary source of power, while a backup stage 5 generator is on hand to ensure you're never without power, no matter the season.

This hybrid combination will lower your costs and emissions without compromising on facilities for your team.

Environmental Benefits

HVO-ready Stage **Stage 5** generator.

0% NOx / SOx while the solar battery is in use.

CO₂ emissions reduced by up to **80%**

Fuel costs reduced by up to **80%**

Noise pollution reduced by **58%**

Solar powered.

Product code	020603
Dimensions LxWxH	3650 x 2300 x 2398mm
Layout	Canteen / 1 toilet
Power type	Hybrid Solar

Visit our site for more technical information, product features and a full spec sheet.

Armadillo 18

Capacity 8-10 people

- Canteen with a kettle, microwave, hot and cold water, and seating for up to 10 operatives.
- A diesel generator powers this unit.
- Easily towable and can be converted into a static unit in minutes thanks to the easy-to-use hydraulic system.
- A private WC with an external door.
- Secure steel construction to help reduce vandalism and disturbances.
- A drying room is incorporated with the generator room.

The Armadillo 18 offers even more space than the Armadillo 12, supporting up to 10 site operatives.

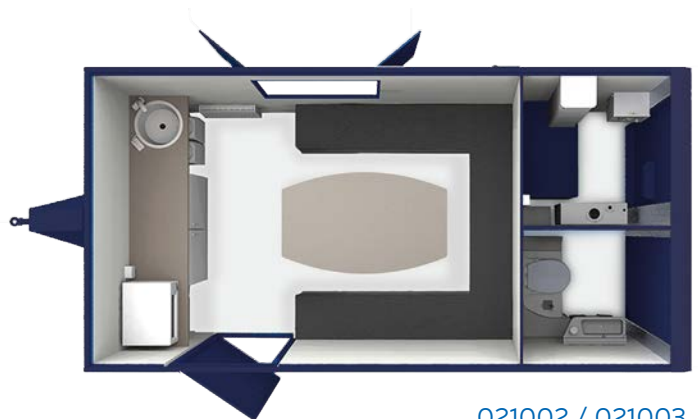

The larger size offers a canteen for up to 10 people, a private WC, and a drying/generator room. The secure, self-contained unit is suitable for use all year round. Easily mobile, it can be moved when and where it's needed and can be made static in a matter of minutes.

The Armadillo 18 is available in two configurations depending on your needs.

Product code	021002
Layout	10 person Canteen / 1 Toilet
Product code	021003
Layout	10 person Canteen / 1 Toilet
Product code	021004
Layout	6-8 Person Canteen / 1 Toilet / 1 Office
Dimensions LxWxH	17 x 7.5ft / 5.2 x 2.3m
Power type	Generator

Visit our site for more technical information, product features and a full spec sheet.

021002 / 021003

021004

Layouts may vary

Armadillo 18 Eco

Capacity 6-8 people

- One or two private W/C configurations are available.
- Easily towable and can be converted into a static unit in minutes.
- This unit is available in multiple configurations, with an office and canteen, and the other has a larger canteen.
- Drying room is incorporated.

The Armadillo 18 Eco is one of our most versatile units and maximises space and facilities for your site.

This larger unit is suitable for up to 10 people and is available in three configurations. Two private toilets for male and female operatives can help you stay compliant with the latest regulations, while solar panels provide the primary power for this unit to help you stay sustainable.

A backup HVO-ready automatic generator is also on hand to ensure you're never without power, no matter the season or the weather.

Environmental Benefits

-  CO₂ emissions reduced by up to **80%**.
-  **HVO ready.**
-  Noise pollution reduced by **58%**.
-  **0% NOx / SOx** when the solar battery is in use.
-  **Solar powered.**

021005

Armadillo 18 Eco+

The Armadillo 18 Eco+ provides all the comfort and welfare facilities you need, with nearly zero emissions.

The low power requirement of the Armadillo Eco+ 18, coupled with our advanced microgrid power technology offers one of the lowest emission options on the market.

Our approach prioritises the use of renewable energy, with a battery backup system designed to store surplus energy and ensure you have reliable power if renewables aren't available.

Our comprehensive IOT management system provides visibility into the unit's usage, environmental impact, and service requirements for waste, water and fuel, so you can always see how sustainable you are.

Capacity 10 people

- Road towable, self-contained secure steel unit.
- Microgrid technology primarily powers this unit with solar energy
- Telematics helps you record usage data for auditing purposes.
- Inverter powered sockets and USB connection.
- Recycled non-slip flooring with lined/insulated GRP panels.

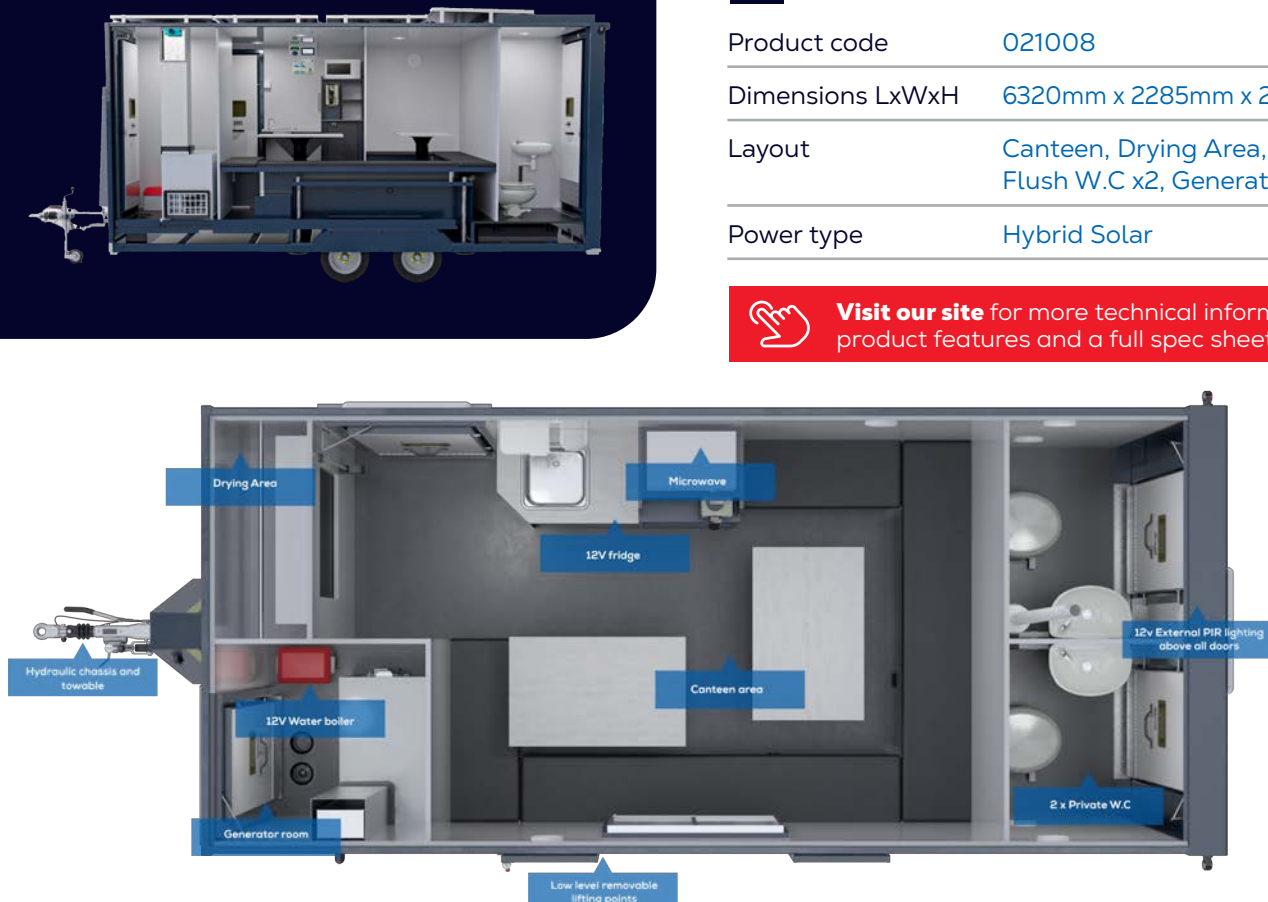

Environmental Benefits

-  Fuel costs reduced by up to **96%**.
-  Emissions reduced by up to **95%**.
-  Powered by **renewable energy**, with a battery backup system designed to store surplus energy.
-  **Rain water harvesting.**
-  Diesel or **HVO** enabled.
-  Near **zero** noise pollution.

Product code	021008
Dimensions LxWxH	6320mm x 2285mm x 2500mm
Layout	Canteen, Drying Area, Full Flush W.C x2, Generator Room
Power type	Hybrid Solar

Visit our site for more technical information, product features and a full spec sheet.

Mobile Welfare Vans

Robust, reliable, and ready to go

Garic's welfare vans are the ultimate mobile welfare solution. Ideal for a variety of site environments, our range has a van for every job and every budget.

Welfare Van Eco+

Capacity 7 people

- Premium telematics let you monitor location, fuel efficiency and driver behaviour.
- Open plan toilet and changing room to give your team extra space.
- Rear parking sensors and reversing camera.
- Canteen with a microwave, kettle, and instant hot water.
- A smart, lithium battery powers the unit.
- Chapter 8 regulation livery, front and rear LED beacons and additional low-level strobes (programmable) front and rear.

The Welfare Van Eco+ delivers expertly-manufactured modern comfort in the ultimate mobile welfare vehicle.

By integrating the toilet and drying room, we've maximised your space without sacrificing amenities. Premium telematics comes as standard on this model, providing essential data like location monitoring, event tracking, fuel efficiency, and driver behaviour insights to help you get more from your fleet. Additionally, the Welfare Van Eco+'s compatibility with HVO reduces your scope emissions.

Environmental Benefits

200 kg

200kg of carbon saved per week (with standard use, compared to 35-70l of diesel).

Circa **10 tons** of CO₂ savings per year.

Low carbon footprint of just **47.9 mpg**.

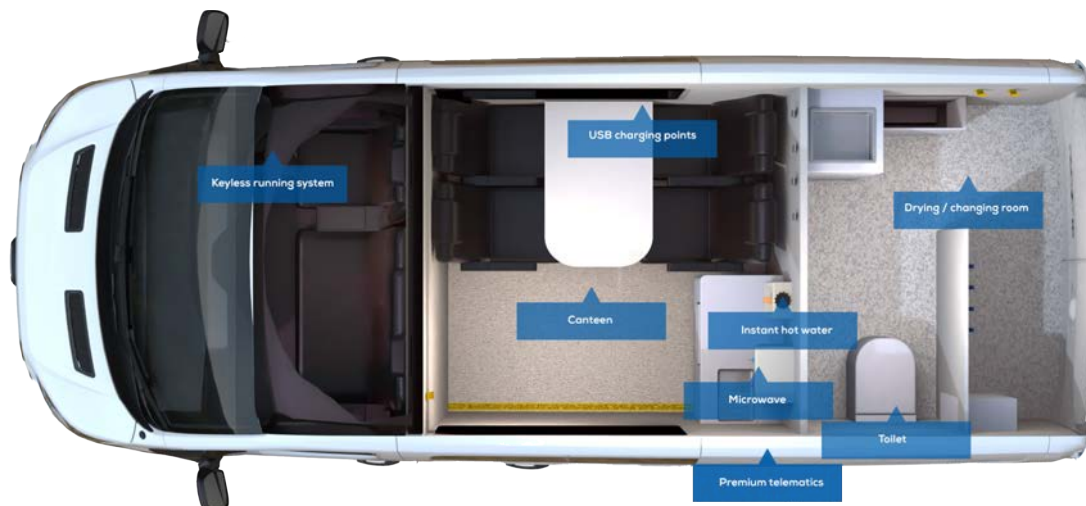

HVO ready.

Product code	010003
Dimensions	6.1 x 2.4m / 20 X 8ft
Layout	Canteen / seating area / Toilet / drying room
Power type	Hybrid solar

Visit our site for more technical information, product features and a full spec sheet.

Welfare Van Eco

Capacity 7 people

- Solar panels primarily power this Welfare Van Eco.
- Rear parking sensors and a camera are fitted.
- Chapter 8 regulation livery with front and rear LED beacons.
- Powered by a smart and efficient lithium battery.
- Keyout engine management system. Van remains operational without safety or security risk.
- Canteen with microwave, sink, kettle, and instant hot water.

The Welfare Van Eco incorporates hybrid technology and new features to improve welfare, sustainability and safety on your sites.

Perfect for transient jobs, this mobile unit can run its inbuilt welfare facilities solely from its solar panels. That means you don't need to run the engine while the van is stationary, and that its facilities can be used throughout the day.

Environmental Benefits

Solar panels harvest up to **600w 40amp/hrs** in ideal conditions.

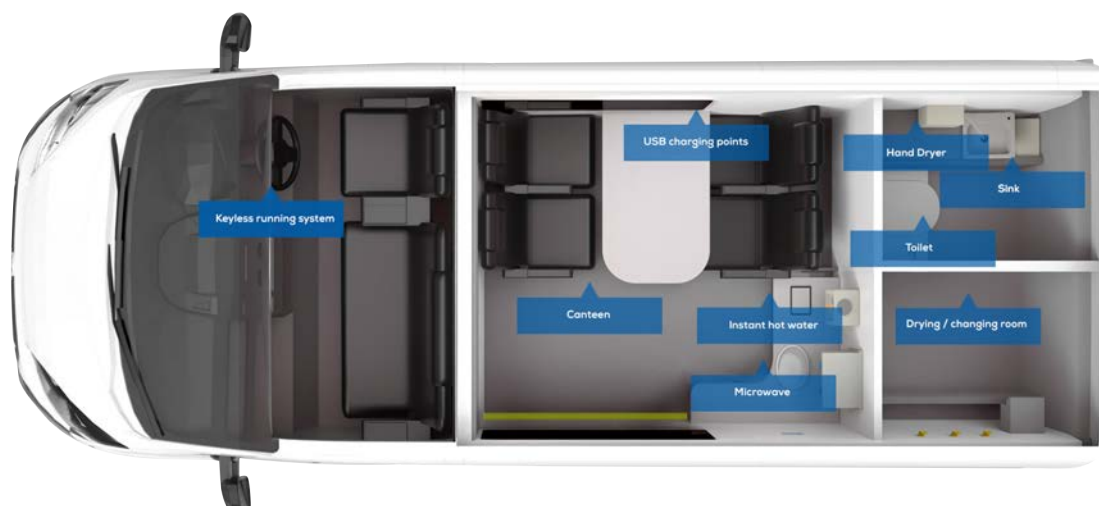

200kg of carbon saved per week (with standard use, compared to 35-70l of diesel).

Product code	010001
Dimensions	6.1 x 2.4m / 20 x 8ft
Layout	Canteen / seating area / Toilet / drying room
Power type	Hybrid solar

Visit our site for more technical information, product features and a full spec sheet.

Welfare Van

The Garic Welfare Van brings transport and site welfare facilities together in one flexible solution suitable for a variety of sites.

Perfect for transient jobs, the Welfare Van conforms to all the latest regulations and is fitted with VOSA tested seating and specification seat belts.

Every Welfare Van is fitted with an internal control panel to make it easy to use all the heating, lighting and welfare facilities. You can also make use of an overhead storage area while your workers stay connected with 12v and USB charging points.

Capacity 7 people

- Chapter 8 regulation livery, front and rear LED beacons.
- Private WC with its own external door, and eco-flush cassette toilet.
- Canteen area with sink, instant hot water & microwave.
- Overhead storage area.
- DVSA specification seat belts.
- Drying room and storage area.

Product code	010000
Dimensions	20 x 8ft / 6.1 x 2.4m
Layout	Seating area / Toilet / Drying room

Visit our site for more technical information, product features and a full spec sheet.

Static Welfare

Your site's productivity hub

Garic's static welfare facilities can be configured in multiple ways to provide you with a range of features and your teams with the ultimate in comfort and convenience.

Eco Cabin

Self-contained welfare units that don't need any external power to run.

Combi Cabin

All the benefits of an Eco Cabin, with the added ability to power additional cabins.

Eco Cabin 15

Capacity 4 people

- Canteen for 4 people to comfortably sit.
- Anti-vandal steel constructed unit for durability.
- Fully flushing WC and forearm sink, keeping you compliant.

The Eco Cabin 15 has a separate toilet and canteen area and comfortably accommodates up to 4 people.

This self-contained static welfare unit is delivered with water and power supplies already connected, so it's perfect for a quick and easy site set up.

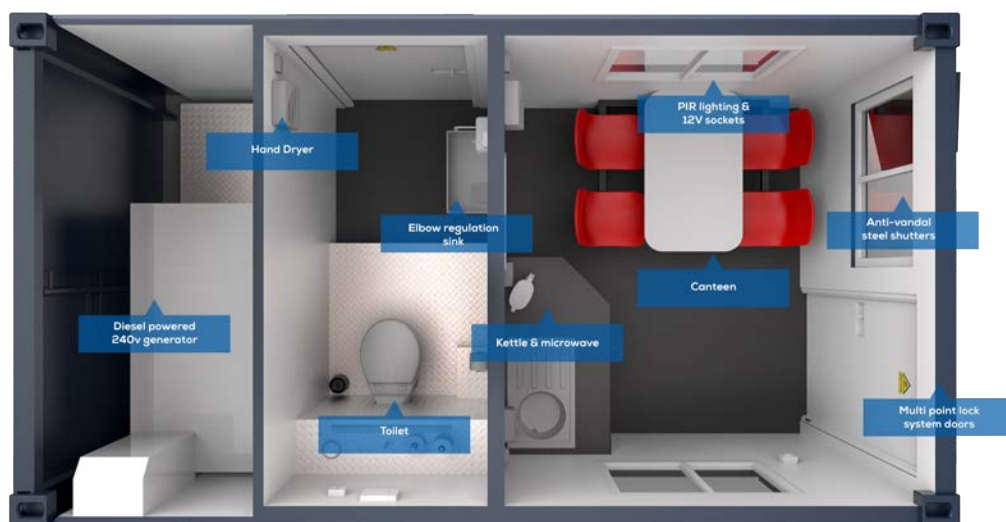

Manufactured in the UK using only the highest quality materials, our units are some of the most robust, secure and flexible, self-contained welfare options on the market.

Offering facilities including fresh water, waste and fuel tanks, flushing toilets, urinals, hot and cold water, hand dryers, heating, lighting and power generators, the Eco Cabin 15 is supported by our 5-star service team. That means you'll never run out of drinking water or liquid soap – and we'll even deliver the toilet rolls too.

Product code	31402
Dimensions	14.5 x 8ft / 4.4 x 2.4m
Layout	1 Toilet / Canteen or Office / Office / Toilet
Power type	Generator

Visit our site for more technical information, product features and a full spec sheet.

Eco Cabin 24

Capacity 10 people

- Canteen for 8 people & single person office.
- Bathroom with shower cubicle, loo and urinal.
- Completely solar powered with no need for a backup generator - saving you hundreds on fuel bills.

Some units may be fitted with a backup 12V generator.

The Eco Cabin 24 welfare cabins use patented technology to slash your running costs by completely eliminating the need for a generator.

Instead, all of the power needed is drawn from eight solar panels housed on the portable building's roof. The unit itself is heated by a small fuel tank which is also powered by solar energy.

Each unit each contains a bathroom with a single shower cubicle, one toilet, one urinal, a wash basin and hand dryer; a canteen for eight people with sink, microwave, 12vDC fridge, instant hot water, radiator and table and bench seating; a drying/changing room with slatted seating and an office complete with radiator and USB/12v power sockets.

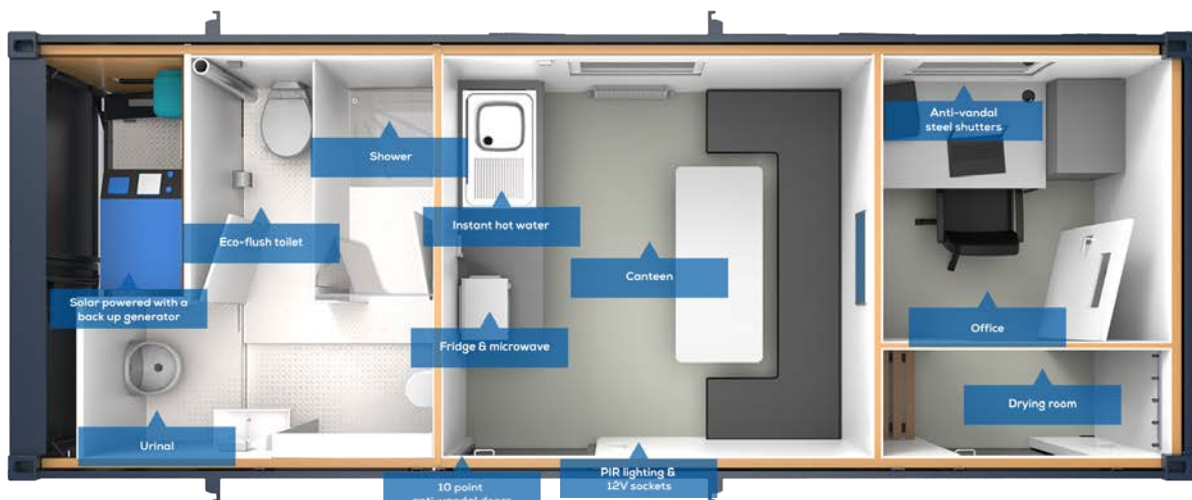

Environmental Benefits

- ✓ Fully compliant with the very latest CDM 2015 regulations
- Up to **88%** reduction in fuel costs
- Up to **88%** reduction in CO₂
- Eco-flush** W.C and urinal
- Solar powered**

Product code	32400
Dimensions	24 x 9ft / 7.3 x 2.7m
Layout	Toilet / Canteen or Office / Office / Toilet
Power type	Generator

Visit our site for more technical information, product features and a full spec sheet.

Eco Cabin+ 24

Capacity 10 people

- Canteen with 12V fridge, 2 x Private W.C, office.
- 2X WC to help keep you compliant.
- Dedicated safety zone to ensure key messages are prominently displayed and observed.
- Telematics helps you record usage data for auditing purposes.
- Microgrid technology primarily powers this unit with solar energy.

Lightweight, comfortable and fully equipped, the innovative Eco Cabin+ 24 sets new standards for environmental performance and user well-being.

The Eco Cabin+ 24 offers unrivalled environmental performance, thanks to thermal efficiency, low operating power requirements and our advanced microgrid power technology.

By prioritising the use of renewable energy, backed up by a battery system designed to store surplus energy, this unit provides a consistent power supply when renewable sources are not available, ensuring an uninterrupted service.

Environmental Benefits

Up to **95%** reduction in fuel costs

Up to **95%** reduction in backup power generation

Up to **95%** reduction in CO₂

EPC rated **A**

Near **Zero** noise pollution

Product code 032409

Dimensions LxWxH 7320 x 27555 x 2500mm

Layout 9 Person Canteen, Office, Drying Area, Safety Area, Full Flush Washroom x2, Generator Room

Power type Hybrid Solar

Visit our site for more technical information, product features and a full spec sheet.

Combi Cabin 24 Eco

Capacity 10 people

- Circular economy refurbished unit.
- Fully CDM compliant with separate male and female toilets.
- Canteen and drying area with benches.
- Roof mounted solar panels power the unit with backup hybrid generator.
- Blown air heating system.
- Occupancy lights outside the toilet doors.
- Built in microgrid system.

The Combi Cabin 24 Eco shows how we can push the boundaries and rethink industry standards on static, self-contained welfare to reduce your emissions and drive down your fuel costs on-site.

The Combi Cabin 24 Eco is our first circular economy product, and it saves older units and materials from heading to landfill, while extending the unit's life from 20 to 60 years.

This really is a welfare cabin that looks after the environment as well as your people.

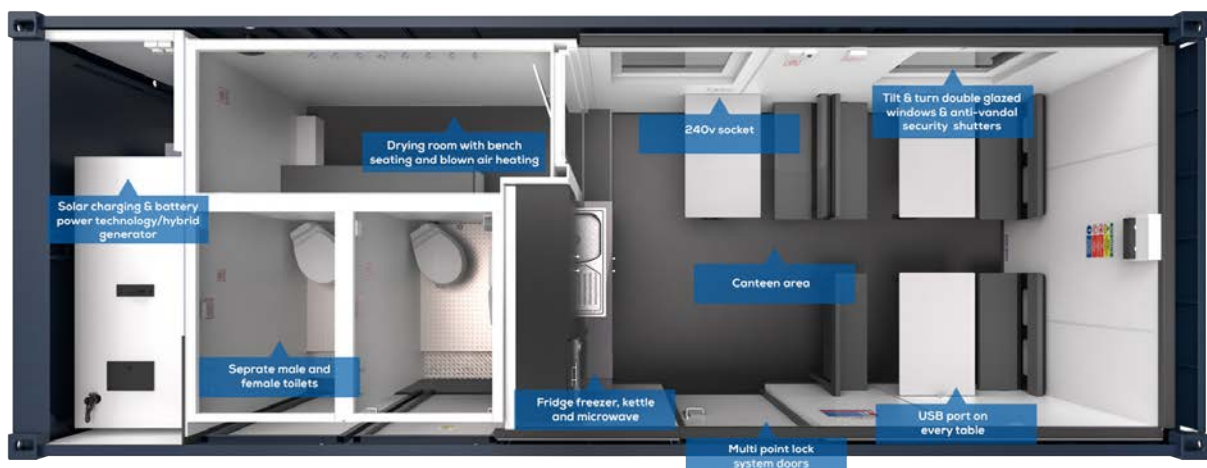

Environmental Benefits

-  **Solar charging** and battery power technology/**hybrid generator** on board.
-  Refurbished, recycled unit with a **reduced carbon footprint**.
-  Up to **90%** reduction in CO₂.
-  Up to **90%** reduction in fuel saving.
-  Up to **90%** reduction in noise.

Product code	032410
Dimensions	24 x 9ft / 7.3 x 2.7m
Layout	M+F toilets, canteen, drying changing room
Power type	Hybrid Solar

Visit our site for more technical information, product features and a full spec sheet.

Combi Cabin 24

Capacity 8 people

- Canteen for 8 people & single person office.
- Anti-vandal steel constructed unit.
- Power and configuration options available to suit your needs.

The Combi Cabin 24 houses a canteen with seating for up to eight staff, a storage area, a private WC with a urinal and an office that can be converted into a changing room.

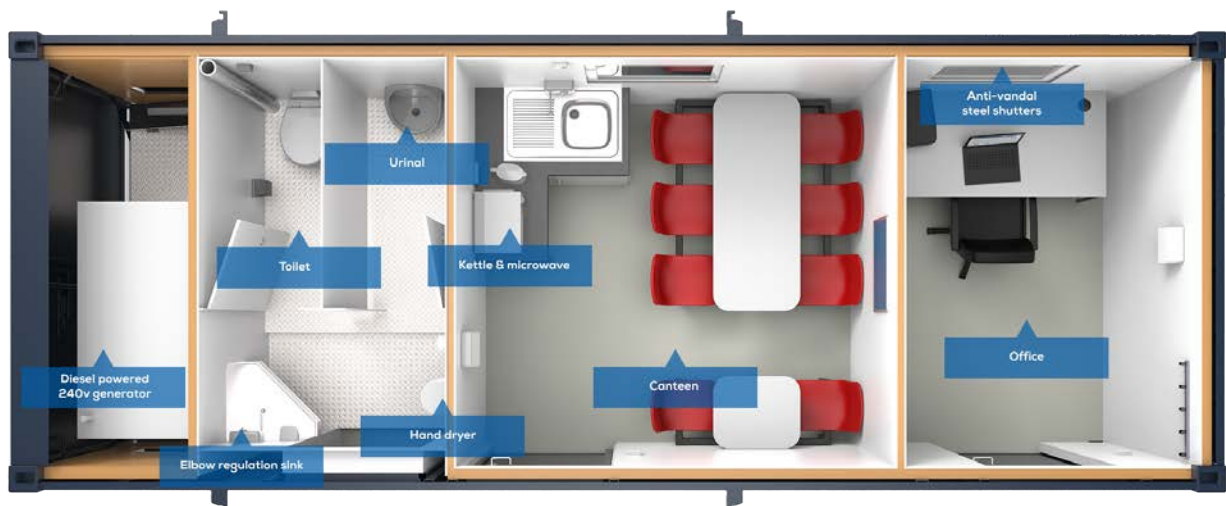

Each unit is completely self-contained and powered by a 240v diesel generator, so you don't have to worry about connecting water and power supplies - once we've delivered your welfare unit, you're ready to go.

The cabin features a secure 5-point deadlocking system and anti-vandal devices to secure even the most vulnerable sites.

Product code	32402
Dimensions	24 x 9ft / 7.3 x 2.7m
Layout	Office/Canteen/W.C or Drying /Changing Room
Power type	Generator

Visit our site for more technical information, product features and a full spec sheet.

Combi Cabin 34

Capacity 12 people

- Different configurations available.
- Fully flushing WC, urinal and forearm sink.
- Anti-vandal steel constructed unit.

A 34' two-part unit for up to 12 people.

Featuring two sections, the Combi Cabin 34 offers a range of options for site managers. The first section has a Gen Series 240v generator with a standard canteen and toilet layout.

The second section can be configured in a number of ways, including as an office, extra canteen or drying room.

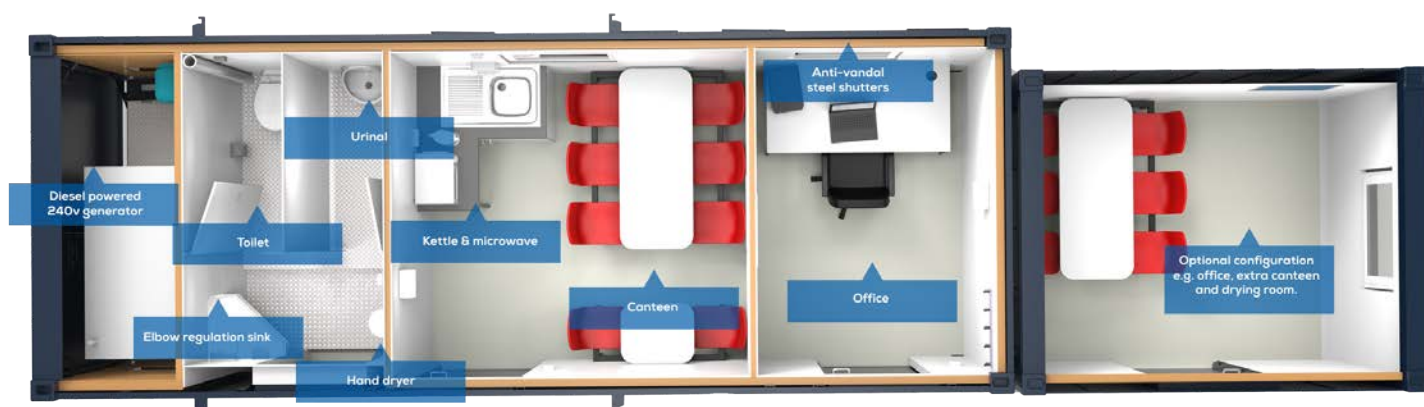

This unit's facilities include fresh water, waste and fuel tanks, flushing toilets, urinals, hot and cold water, hand dryers, heating, lighting and power generators. Simply contact our team, and we'll help you customise the configuration to meet your needs.

*Please note: This unit can be configured in the same way as any of the other units in our cabin range, including as an office, canteen, or drying/changing room.

Product code	032406
Dimensions	34 x 9ft / 10.3 x 2.7m
Layout	Office/Canteen/W.C
Power type	Generator

Visit our site for more technical information, product features and a full spec sheet.

Combi Cabin 44

Capacity 20 people

- Different configurations available.
- Fully flushing WC, urinal and forearm sink.
- Anti-vandal steel constructed unit.

A 44' two-part unit for up to 20 people.

The Combi Cabin 44 can meet any of your larger site's requirements, providing welfare amenities for up to 20 workers. Featuring a canteen and toilet, the cabin can be configured in a multitude of ways to meet your specific needs.

This unit's facilities include fresh water, waste and fuel tanks, flushing toilets, urinals, hot and cold water, hand dryers, heating, lighting and power generators. Simply contact our team, and we'll help you customise the configuration to meet your needs.

*Please note: This unit can be configured in the same way as any of the other units in our cabin range, including as an office, canteen, or drying/changing room.

Depending on the configuration you choose, extra waste tanks may be required. Due to the versatility of these units, the illustrations of the internal space are included as an example only.

Self Contained Drying Rooms

Solar powered toilets and drying units

Units specifically designed to dry your team's work clothes and help you stay compliant.

Sustainable
0330 094 8061

2+1+Dryer 24 Eco

Capacity 20 people

- 1200W of solar panels to power the unit.
- PIR controlled LED lighting.
- Instant hot water hand washing.
- Integrated waste and water tanks.
- High level windows, anti vandal doors, robust steel construction.
- Heated drying / changing room.

A self-contained solar powered toilet and drying unit

The 2+1+Dryer 24 Eco is a self-powered unit, providing full male and female toilets along with a heated drying room – with changing benches and clothes hangers for up to 20 people.

Powered by its roof-mounted solar panels, the unit is designed to help you save up to 86% in energy costs.

Perfect for every site, the 2+1+Dryer 24 Eco is particularly good for low usage sites where the unit may be unoccupied for long periods of time.

Environmental Benefits

Up to **86%** reduction in energy costs.

Thermostatically controlled solar-powered blown heating system with oil burner for **quicker, quieter drying**.

Solar powered with DC battery backup.

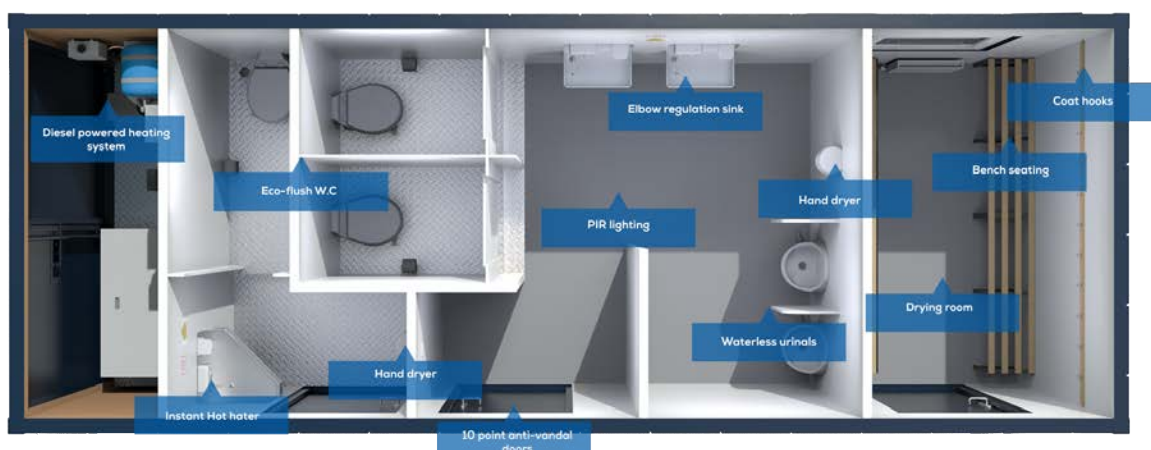

Economic fresh flush toilets.

Product code	42400
Dimensions	24 x 9ft / 7.3 x 2.7m
Layout	Drying room, separate male and female facilities
Power type	Solar

Visit our site for more technical information, product features and a full spec sheet.

Solar Dryer Eco

- Solar powered with DC battery backup.
- Insulated walls and ceilings.
- PIR controlled lighting on entry.
- External rain shrouds.
- Heated drying room.

A drying room that's up to 86% cheaper to run

The Solar Dryer Eco comes with 3 changing benches and a coat rail with captive anti-theft hangers. Lockers are an optional extra.

Designed to help you save up to 86% in energy costs, the dryer has a thermostatically controlled solar-powered, blown air heating system supported by an oil burner for quicker and quieter drying. The unit is fully secure with anti-vandal features along with heavy duty low level lifting eyes and fork lift inserts for easy placement.

Available in either 10' x 8' or 20' x 8' sizes.

Environmental Benefits

Up to **86%** reduction in energy costs.

Thermostatically controlled solar-powered blown heating system with oil burner for **quicker, quieter drying.**

Solar powered with DC battery backup.

Site Toilets & Showers

Go beyond the ordinary and take care of your team with high-quality hygiene facilities. Choose site toilets and showers designed to be both comfortable and hygienic.

Self contained

Each self-contained cabin has a power source included in the unit itself.

Unpowered

Our unpowered units require an external power source, such as a generator, in order to run.

Solar Loo 8

- Toilet & urinal featuring fully flushing system for enhanced hygiene and waterless urinal.
- Solar panels capture energy to power the unit.
- Hot hand dryer & elbow sink is fitted in this unit to comply with regulations.
- The solar loo boasts a solid steel construction, reducing the risk of vandalism and disruptions. Built to last in all environments
- Eco board internal lining to all walls.

Once the first of its kind. Still the most loved.

Sites loved the Solar Loo when it was launched over 20 years ago, just as much as they do today. It earned the Green Apple Award for Innovation back in 2002 and continues to impress people today.

Each Solar Loo 8 toilet unit comes fully equipped with a flushing WC, urinal, hot and cold water, hot air hand dryer and environmentally friendly 12v LED lighting.

The Solar Loo remains the only solar-powered portable toilet for hire which comes complete with integral tanks, while the absence of a generator means these cost-effective facilities have very low servicing costs.

Environmental Benefits

Reduced **fuel costs** and emissions.

Reduced water usage through a **waterless urinal**.

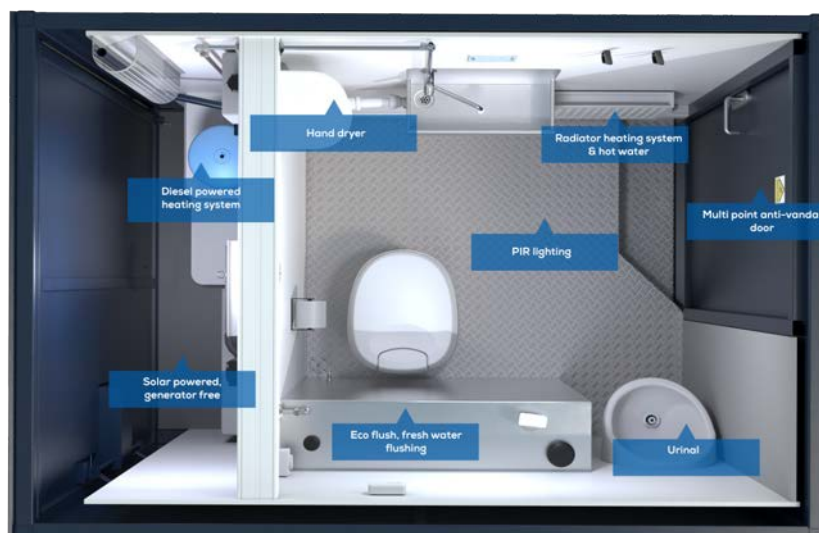

Generator-free unit is powered by **solar energy** to reduce diesel usage.

Product code	040803
Dimensions	8 x 5ft / 2.4 x 1.5m
Layout	1 Toilet / 1 Urinal
Power type	Solar

Visit our site for more technical information, product features and a full spec sheet.

1+1 Toilet Block 10

Capacity 25 people

- Solar panels capture energy to power the unit.
- Hot water, dryer & elbow sink is fitted in this unit to comply with regulations.
- An energy-efficient heating system ensures that your team enjoys a warm and comfortable environment while minimizing overall energy consumption.
- Heated shower cubicle with a seated changing area.

A standalone, 2 toilet and shower unit powered by roof-mounted solar panels.

A self-contained toilet block equipped with fully-flushing toilets, forearm regulation sinks with hot and cold running water, touch-free hand dryers, separate shower, changing area and PIR lighting.

The Toilet Block 10 features a diesel powered water and heating system with a radiator in each cubicle for extra comfort.

The generator-free, self-contained unit requires very little maintenance, reduces CO₂ emissions and cuts fuel bills dramatically.

Complies with CDM regulations and 1 unit is suitable for use by 25 people.

Environmental Benefits

Generator free unit.

Fuel efficient and **low emission**.

Product code	041001
Dimensions	10x8ft / 3 x 2.4m
Layout	2 toilets and shower unit
Power type	Hybrid Solar

connect@garic.co.uk

Below are some examples of the connected solutions we offer.

Bastion Tower

This advanced 360° PTZ tower detection system offers full site coverage with rapid deployment, ensuring your project stays secure from day one.

Solar Trailer

The 360° tower has four 5MP static cameras or a PTZ with 50m IR capability, providing continuous 360-degree footage for full site surveillance.

Wireless Alarm Site Protection

Featuring tag readers, external sounders, and seismic detectors, it detects intruders fast.

Below are some examples of the connected solutions we offer.
Can't see what you are looking for? [Talk to us: 0330 094 8066](tel:03300948066)

Starlink

The world's most advanced high-speed internet system. Streaming, video calls, remote working and more are now possible in even the most remote locations.

WiFi

Fast internet access to your site.

CCTV Towers

Flexible, wireless, video verified CCTV security towers. Robust, highly-visible deterrent offering a comprehensive surveillance, recording and remote monitoring solution.

Site Lighting

A range of tower lights that can be used in urban areas with strict noise restrictions.

Fencing / Barriers

Quick and easy temporary fencing ideal for many applications in construction.

Air Conditioning

A range of industrial air conditioning systems. Compact units ideal for offices and other domestic/commercial spaces. Semi-industrial portable units ideal for factories and workshops.

Event Toilets

Luxury and event portable toilets available in a variety of sizes.

Modular Builds

Modular building systems with interchangeable wall, window and door panels allowing flexibility to choose an internal room arrangement specific to your requirements.

Containers

Containers of all sizes with refrigerated and temperature controlled options.

Hygiene Solutions

A partnership that raises standards

We've partnered with **phs** to help you raise sanitary standards on site and become more inclusive.

HSE legislation requires sanitary waste facilities on construction sites.

We're all about making your life easier when it comes to sanitary provisions and welfare units. Our solutions help you stay on the right side of regulations while creating a more welcoming environment for everyone on site.

From accessible facilities to compliant setups, we've got you covered. It's not just about ticking boxes – it's about creating spaces where everyone feels comfortable and respected.

Talk to us about including hygiene solutions on your site.

0330 094 8066
connect@garic.co.uk

Washroom equality for all

Working to create period equality

Breaking the stigma and taboo around periods to create period equality in the workplace.

We believe that everyone should have access to the period products they need and that sanitary waste disposal should be available in facilities used by female workers. That's why we now offer Sanitary Disposal and accompanying services in our welfare units.

Male Incontinence

With 1 in 4 men over 40 suffering from incontinence issues phs have partnered with Prostate Cancer UK to raise awareness of the issue.

With a staggering 3 to 6 million people in the UK experiencing urinary incontinence, we are pleased to present a discreet and dignified waste disposal solution within our cubicles. This innovative approach not only addresses a common concern but also enhances the overall user experience by offering a more private and considerate waste management option.

The BOG STANDARD Charter is a set of guidelines designed to educate organisations on providing essential support for men with incontinence. The accreditation means that we're supporting men to discreetly dispose of their incontinence waste behind the cubicle door. Choosing to support and achieve BOG STANDARD is a crucial step in addressing the often overlooked but significant issue of male incontinence and prostate cancer.

Sanitary Disposal

In partnership with phs, we offer a complete clean and liner exchange service on site.

A keen focus on both functionality and health

A solution tailored for high footfall areas to accommodate larger numbers of users

Seamlessly integrated lid with antimicrobial materials and a potent germicidal agent eradicating up to 99.99% of bacteria

Added value to the phs washrooms sanitary unit service

We're a market leading sustainable welfare provider to many major infrastructure projects around the UK, we understand how important employee, customer and visitor satisfaction is to you as well as doing your bit for the environment.

Disposal waste at construction sites are currently being flushed into septic tanks and into landfill. With phs Lifecycle, the waste collected is diverted away from landfill and instead turned into energy to power the National Grid.

phs currently divert up to 95% of the hygiene waste we collect from customers away from landfill, sending it to energy recovery facilities (ERF) across the UK.

Male Incontinence Bins

We now offer a male incontinence bin in our welfare units, that will help provide men with dignity when disposing of incontinence waste.

A discreet and private means of disposing of waste

Demonstrating inclusivity and sensitivity towards a diverse range of users

Proper waste disposal to meet health and safety regulations

phs Airstream Clean

We also offer this compact easy installation unit.

The air-purifying unit is a solution that enhances the quality of your entire facility by filtering out airborne viruses and odours

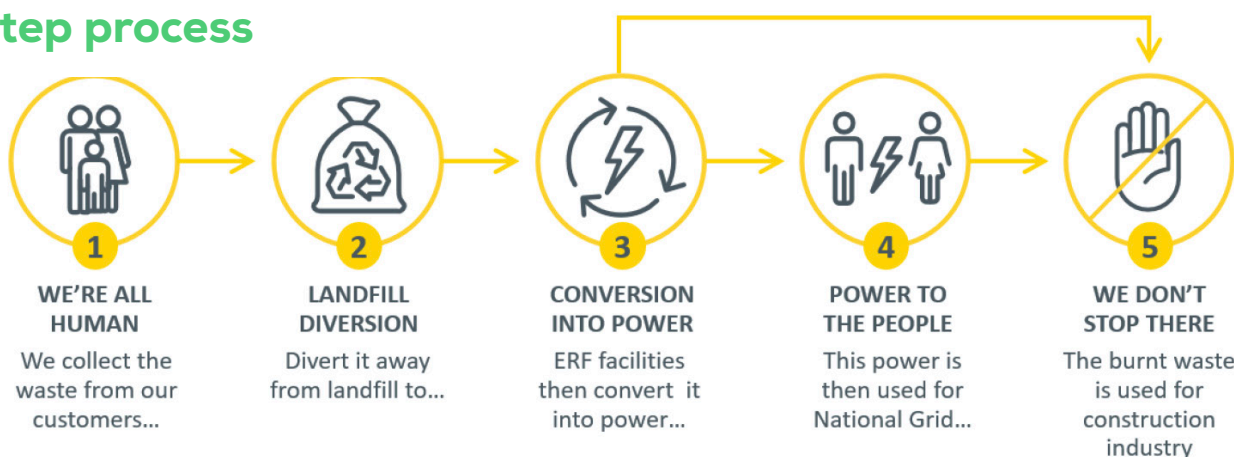

Removing harmful germs, allergens and other irritants from the air

Ideal air purifier for washrooms.

5 step process

Making your life easier

By focusing on understanding and solving your problems, we're letting you focus on what's really important to you and your customers – successfully delivering your projects.

We're helping you operate sites that comply with all relevant legislation and HSE guidelines.

We're removing risk from your day-to-day on-site operations.

We're providing real-time performance data enabling you to make more efficient decisions.

We're saving you money and helping you to have a more positive environmental impact.

Outcome-driven solutions

Because we're trying to see things from your perspective our approach starts and ends with you. We want to understand how you feel and what causes anxiety among your on-site teams. We'll use this understanding to make your life easier so that you can focus on delivering your project outcomes.

Planning & logistics

Our site design and installation team can help you plan your site layout prior to installation. This ensures that you maximise the available space while minimising your operating cost, as well as environmental and carbon emissions. With our in-house transport fleet and appointed persons, we really can offer an end-to-end service.

Garic has helped thousands of customers like you deliver their projects successfully for more than three decades. We'll share our experience with you so that you can share in that success.

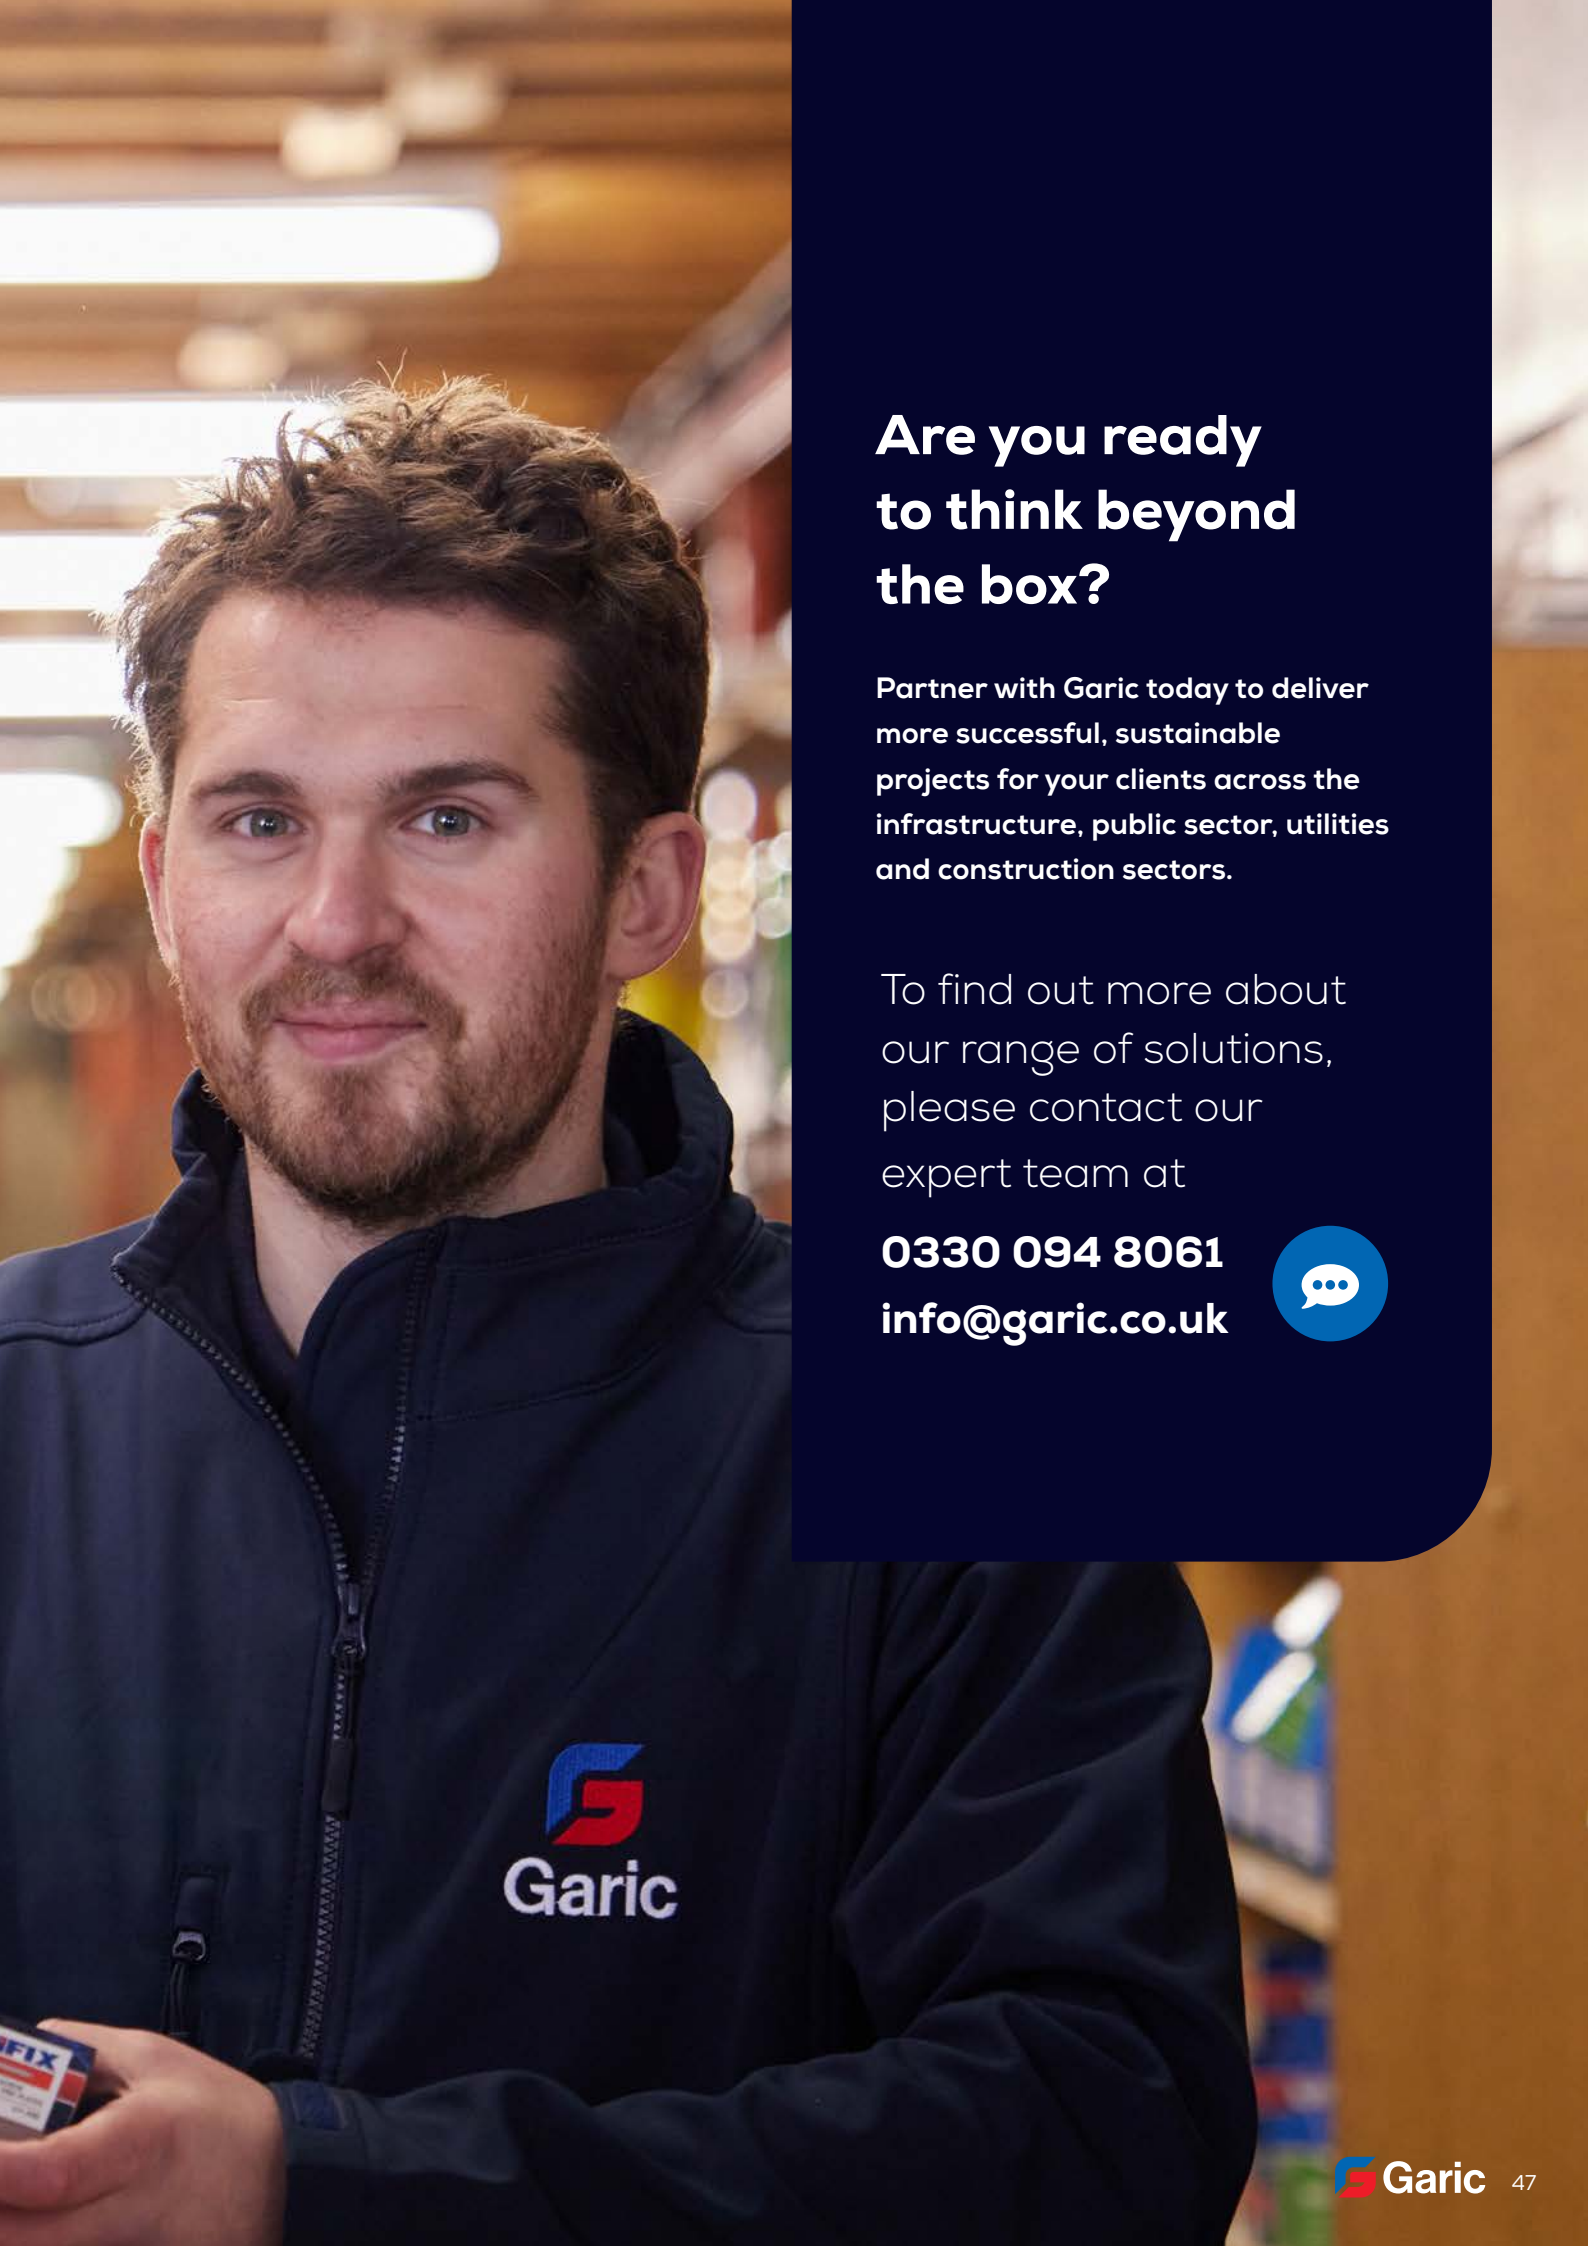

Why partner with us?

Technology and digitalisation are rapidly defining what our collective future will look like. Data from connected assets is already helping us to improve product performance and influence on-site behaviour. We can provide you with real-time access to this data so that you can proactively manage your sites and make more informed, more timely decisions.

The world is changing so fast that it's created a challenge none of us could have imagined even five years ago. We don't know all the answers but we do know that our ability to respond depends on harnessing our collective strength. We believe that this lies in true supply chain collaboration, creating value-add solutions that are greater than the sum of their individual parts.

We're on an exciting journey and we'd like you to be part of it. Through your feedback and collaboration we'll shape our future together so that you can help us to help you become even more successful.

Are you ready to think beyond the box?

Partner with Garic today to deliver more successful, sustainable projects for your clients across the infrastructure, public sector, utilities and construction sectors.
